PREFACE

“Choose a job you love, and you will never have to work a day in your life.”

— Confucius

An internship abroad is an exciting adventure filled with many challenges, especially when it is your first real introduction to the business world in your third year. This experience allows you to understand how your internship company operates and how to find your place within the organisation. You will likely need to step outside your comfort zone to meet your company coach's expectations. How will you handle pressure and responsibility? How will you communicate effectively with colleagues and follow company rules?

Moreover, an internship demands a high degree of flexibility and adaptability. You might need to learn a new language and culture to collaborate effectively with your colleagues. The success of your internship largely depends on your commitment, persistence, enthusiasm, and willingness to learn.

The third-year internship is a valuable experience. Spending five months with an international organisation helps students see the strong connection between ISB subjects and real-world applications, which can be very motivating. This internship provides an opportunity to further develop both personal and professional skills in a global environment.

A key objective of the internship is to help you discover the type of organisation and role that best suits you, identify your strengths, and find what truly makes you happy. As such, the 3rd-year internship is excellent preparation for your future career. This is your journey!

We wish all students, supervisors, and company coaches involved in the internship the best of success!

Sandra van den Bosch (CS/IB)

Corine van Ellen (IB)

Internship Advisors

INTRODUCTION

This internship manual serves as a guide for 3rd-year ISB students, their supervisors, and company coaches. It outlines internship objectives, performance areas, and the roles and responsibilities of all parties involved. It also includes instructions for submitting deliverables and details on the appraisal and assessment process to ensure a successful internship experience.

The student is responsible for acquiring, planning, and executing the internship.

PART A : PREPARATION FOR THE INTERNSHIP

1 THE INTERNSHIP

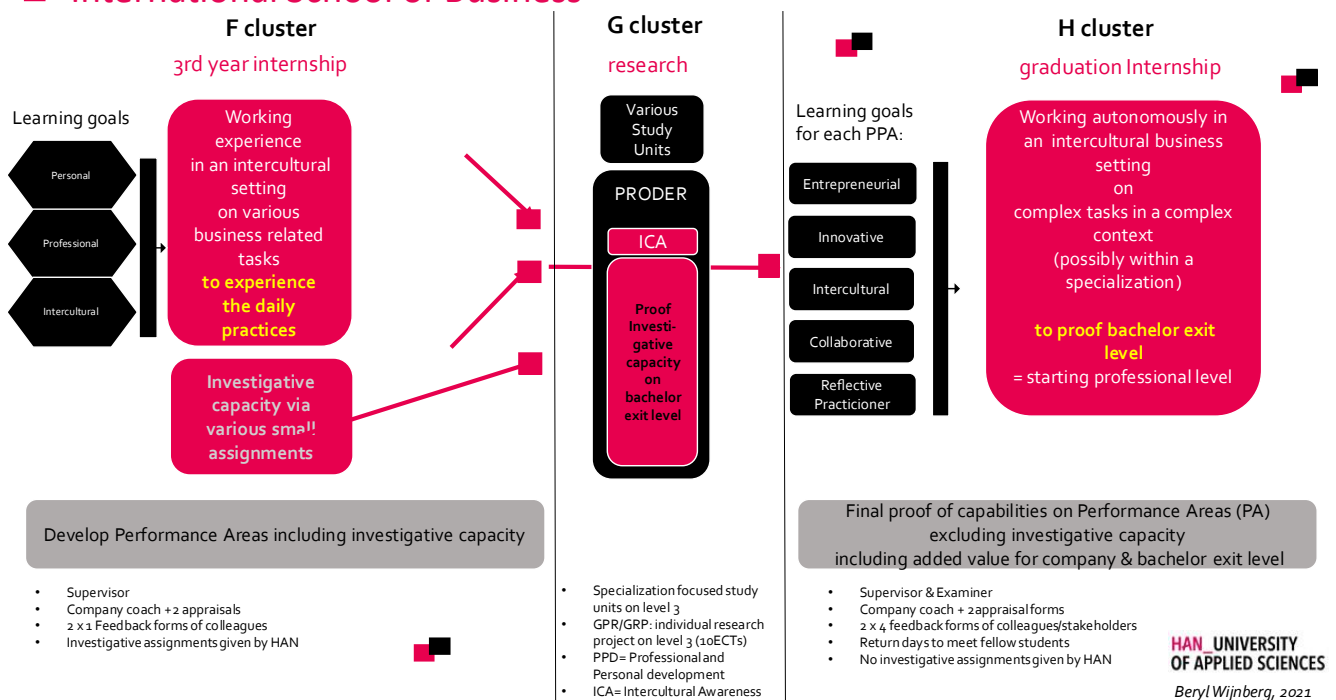

The 3rd-year internship is an integral part of the ISB study program. By working in an international organisation on various business-related tasks, students have the opportunity to experience daily practices in a professional environment and further develop their personal and professional skills. This development is the focus of the internship and runs like a thread through the entire experience and its assignments. In this chapter, the organisation and objectives of the internship will be discussed.

1.1 Structure

The picture illustrates the ISB program's structure, showing how the 3rd-year internship, or F cluster, connects with other clusters. This internship offers students hands-on experience in an international organization, applying skills gained in the first two years of study. It helps them understand their strengths and weaknesses, specializations, and the industries that suit them as they prepare for graduation.

In short, the internship prepares students for their future careers in business and helps them make informed decisions about their professional paths.

International School of Business

1.2 Internship Performance areas and Objectives

The internship goal is to (further) develop the following five performance areas in an international business environment:

Entrepreneurial behaviour with innovative and creative capacity
Collaborative capacity
Reflective practitioner
Intercultural proficiency
Investigative capacity

These performance areas are further explained in the assessment form. Students will be assessed on these performance areas and the assignments and tasks performed for the company. The internship assignments and deliverables outlined in this manual serve as a means to help students understand the internship organisation, develop their performance areas, and reflect on their progress in these fields.

The following objectives apply to the internship:

- Gaining insight into the daily practices within the company
- Understanding the activities and working methods of coworkers
- Learning about the structure and operation of the business
- Gaining insight into the company's external environment
- Understanding the company's Corporate Social Responsibility (CSR) policy
- Understanding the company's IA policy and use of AI
- Exploring job perspectives and career options
- Developing research skills in preparation for the G cluster
- Applying business and management theories to practical situations
- Making a valuable contribution to the internship organisation
- Cultivating a professional attitude
- Improving social and communication skills
- Reflecting on and further developing personal, professional, and intercultural skills
- Improving foreign language skills

In addition to these general objectives, there are four more specific objectives that students must formulate themselves. These should be tailored to their individual needs, education, internship, company, and country.

1.3 Internship Cycles

The main emphasis of the 3rd-year internship is on your personal and professional development, a theme that runs consistently throughout the entire program. During the internship, you will participate in six analysis cycles, and all assignments and reports related to the internship will be connected to one of these six cycles.

The six cycles are:

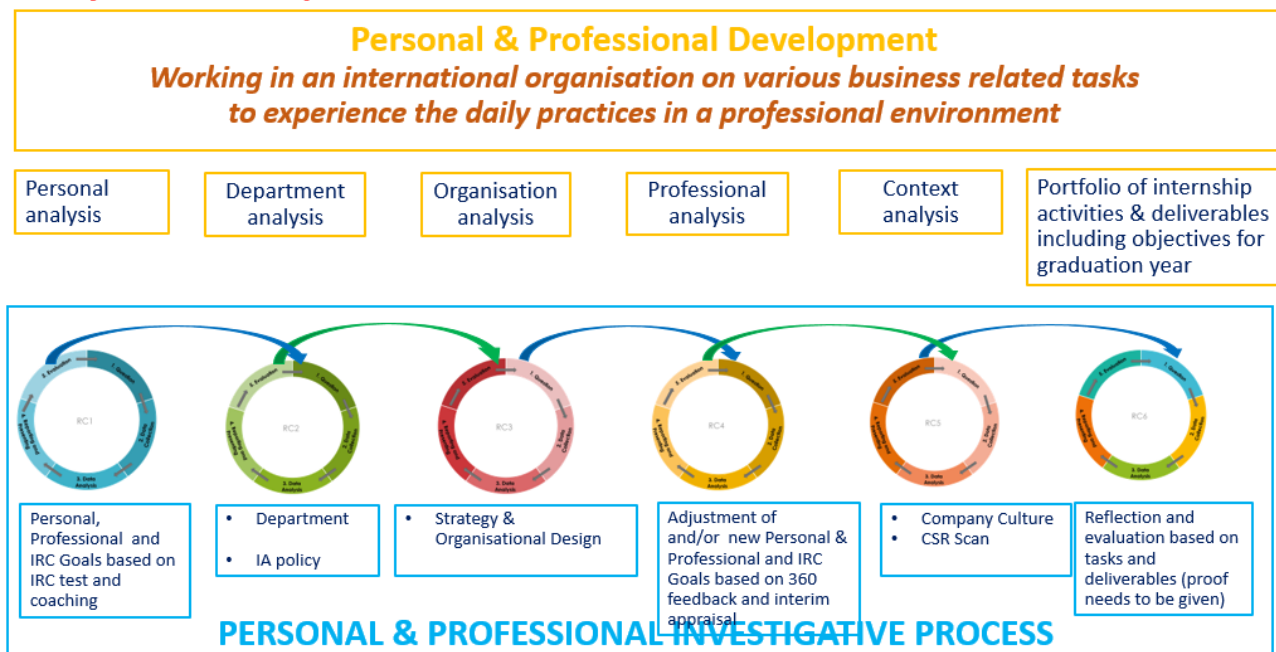

- Personal analysis
- Department analysis
- Organisation analysis
- Professional analysis
- Context analysis
- Reflection and evaluation

The yellow boxes in the picture below show these six cycles. The blue boxes represent the investigative process to support your personal and professional development.

By working on the internship deliverables, you will gain insight into the department, the organisation and its stakeholders, the company culture, its sustainability and IA policy, and your strengths and weaknesses. These deliverables and the cycles also help you develop the internship performance areas mentioned in section 1.1.

The results of your analyses can help define your goals and strengths after your internship, serving as a foundation for your graduation year. More importantly, going through these cycles and reflecting on your performance will help you conceive ideas about the type of company, industry, or country you would like to work in after graduation. Additionally, it will help you identify the position that suits you best, providing you with a clearer insight into your future career.

3rd year Internship – 30 EC

Corine van Ellen, Yvette Oswald & Beryl Wijnberg, 2020

2 INTERNSHIP REQUIREMENTS

2.1 Start and duration of the internship

The time schedule below provides an overview of the possible start dates, the deadline for the final portfolio, and the final date.

The submission date for the final portfolio, week 19, is non-negotiable. You cannot submit your final portfolio before or after this date.

If any personal circumstances require you to deviate from the scheduled dates, contact your IA for approval.

PLANNING 2025-2026 3RD YEAR INTERNSHIP

Regular timeline: Startdate + 21 weeks				
Starting between:			Submission date portfolio (week 19)	End date internship
18-Aug-25	AND	24-Aug-25	28-Dec-25	11-Jan-26
25-Aug-25	AND	31-Aug-25	04-Jan-26	18-Jan-26
01-Sep-25	AND	07-Sep-25	11-Jan-26	25-Jan-26
08-Sep-25	AND	14-Sep-25	18-Jan-26	01-Feb-26
15-Sep-25	AND	21-Sep-25	25-Jan-26	08-Feb-26
22-Sep-25	AND	28-Sep-25	01-Feb-26	15-Feb-26
29-Sep-25	AND	05-Oct-25	08-Feb-26	22-Feb-26
06-Oct-25	AND	12-Oct-25	15-Feb-26	01-Mar-26
13-Oct-25	AND	19-Oct-25	22-Feb-26	08-Mar-26
21-Oct-25	AND	26-Oct-25	01-Mar-26	15-Mar-26
27-Oct-25	AND	02-Nov-25	08-Mar-26	22-Mar-26
03-Nov-25	AND	09-Nov-25	15-Mar-26	29-Mar-26
10-Nov-25	AND	16-Nov-25	22-Mar-26	05-Apr-26
17-Nov-25	AND	23-Nov-25	29-Mar-26	12-Apr-26
24-Nov-25	AND	30-Nov-25	05-Apr-26	19-Apr-26
01-Dec-25	AND	07-Dec-25	12-Apr-26	26-Apr-26
08-Dec-25	AND	14-Dec-25	19-Apr-26	03-May-26
15-Dec-25	AND	21-Dec-25	26-Apr-26	10-May-26
22-Dec-25	AND	28-Dec-25	03-May-26	17-May-26
29-Dec-25	AND	04-Jan-26	10-May-26	24-May-26
05-Jan-26	AND	11-Jan-26	17-May-26	31-May-26
12-Jan-26	AND	18-Jan-26	24-May-26	07-Jun-26

26-Jan-26	AND	01-Feb-26	07-Jun-26	21-Jun-26
02-Feb-26	AND	08-Feb-26	14-Jun-26	28-Jun-26
09-Feb-26	AND	15-Feb-26	22-Jun-26	05-Jul-26
16-Feb-26	AND	22-Feb-26	28-Jun-26	12-Jul-26
23-Feb-26	AND	01-Mar-26	05-Jul-26	19-Jul-26
02-Mar-26	AND	08-Mar-26	12-Jul-26	26-Jul-26
09-Mar-26	AND	15-Mar-26	19-Jul-26	02-Aug-26
16-Mar-26	AND	22-Mar-26	26-Jul-26	09-Aug-26
23-Mar-26	AND	29-Mar-26	02-Aug-26	16-Aug-26
30-Mar-26	AND	05-Apr-26	09-Aug-26	23-Aug-26
06-Apr-26	AND	12-Apr-26	16-Aug-26	30-Aug-26
13-Apr-26	AND	19-Apr-26	23-Aug-26	06-Sep-26
20-Apr-26	AND	26-Apr-26	30-Aug-26	13-Sep-26
27-Apr-26	AND	03-May-26	06-Sep-26	20-Sep-26
04-May-26	AND	10-May-26	13-Sep-26	27-Sep-26
NO START AFTER 11 MAY 2026				

The exact start date and end date of the internship are included in the Internship Proposal Form and the Internship Agreement and/or the Registration Form (on Brightspace). Any alterations in the IPF (e.g., dates, duration, supervision, working online) should be approved by the IA.

The internship lasts for 21 consecutive weeks, with students working 40 hours per week, Monday to Friday, totalling 840 hours. This includes an average of 8 hours per week dedicated to ISB assignments and deliverables. Hybrid internships are permitted, with a maximum of two days of remote work per week. Students are required to be in the office at least three days per week.

The internship must be completed without any breaks, it is a consecutive period of 21 weeks. Students are allowed one day off per month and are also off on national public holidays. Taking time off during the final weeks of your internship to shorten its duration is not allowed.

In case of absence, interns must inform both their internship supervisor and company coach. For prolonged absences due to illness, interns should additionally contact their Internship Advisor and Study Advisor.

Survey

In the third month of the internship, all interns receive a survey from the internship administration. This survey covers aspects such as the industry of their company, details about the internship company itself, its sustainability policies, and the tasks performed. This feedback is crucial for ISB to gain insights into the internship experiences and the future career paths of their students. It helps ISB align their education with the current demands of the labour market and ensures our students are well-prepared for their professional journeys.

Completion and return of this survey are mandatory for all students. Participating in the survey also helps to develop your reflective skills in the performance evaluation.

2.2 Internship Company

To be able to fulfil the internship requirements sufficiently, the following criteria for the internship company apply:

- The company has a minimum of 10 full-time relevant staff positions (at the location of the student's internship)
- The internship company offers an international context (e.g., international team, globally active, internship country is different from the nationality/culture of the student)
- The company has an English website/ the corporate language is English
- The company coach must provide adequate supervision, meeting the following criteria: holding a bachelor's degree, possessing at least 3 years of relevant work experience, and demonstrating fluency in English. An internship in a company owned by a relative or friend, or working under the supervision of a close relative or friend, is not permitted.

- The company provides the students with a workplace and other facilities (computer, etc.)

2.3 Internship tasks

The internship tasks and responsibilities are defined in advance and included in the Internship Proposal Form (on Brightspace).

At least 80% of the tasks should align with the IB/CS performance areas and should be related to the IB/CS subject areas. The IB subject areas are Organisation and Change, Marketing and Sales, Supply Chain Management, and Finance. As the 3rd-year internship is the first introduction to the field of business, an IB student may accept an internship outside the chosen IB specialisation. The CS subject areas are: Corporate Communication, Internal Communication, Online Communication, PR, Marketing and Communication, HR.

On Brightspace and in Appendix A of this manual, students can find an overview with examples of IB and CS internship tasks and projects.

2.4 Internship threshold and three culture experience

Students can start with the internship if they meet the threshold:

1st year completed and 45 credits from C and D cluster

IRC test (for IB students: IRC coaching)

ISB applies a three culture experience requirement (see Degree Statute and info on Brightspace). The third-year internship semester is an excellent opportunity to spend five months abroad to experience a new culture, and to develop your foreign language skills.

See the Degree Statute.

The internship requirements are also mentioned in the Internship Proposal Form (IPF) (on Brightspace).

2.5 Credits

If the student has completed all requirements for the internship, he/she will obtain 30 ECs.

The underlying proof exists of the following documents:

- Final Internship Portfolio report, including the Personal Internship Plan (PIP), Infographic Department Analysis, Business Canvas Model, Communication report, IA PowerPoint presentation, Interim Performance Reports and summary of the first appraisal meeting, CSR Scan, four 360° Feedback Forms (with signature) two signed appraisal forms (interim and final) and proof of tasks/ assignments performed for the company.

For detailed info on the portfolio report see Cycle 6 and the checklist (Appendix V).

- Presentation and Criterium Based Interview (CBI)

The assessment of the internship is the responsibility of the internship supervisor: he/she fills in the assessment form and grades the internship based on the deliverables and forms and the CBI.

3 ACQUISITION AND APPROVAL

3.1 Acquisition process

The student is responsible for obtaining a suitable internship, but gets support from his/her internship advisor (IA) during the acquisition process.

For a concise overview of the acquisition and approval process, refer to the “Internship Student Journey” document on Brightspace. It outlines all essential steps, including milestones, requirements, and recommended actions.

In February and September, online information sessions about internships are held for all students. After attending one of these sessions, you will receive an Internship Intake Form via email. Following this, you can join the 3rd-year Internship Teams for February 2025 and schedule an intake meeting with your Internship Advisor (IA).

It is important to meet with your IA to discuss your internship preferences, receive feedback on your CV, and ensure that your internship meets the requirements. Maintaining regular contact with your IA throughout the internship search process is essential for guidance in finding and applying for opportunities that align with your interests and career goals.

February/September	Internship Info session	Upload form (sent to you by email after the session) with info on internship semester
February/September	All students starting their internship in the next semester are added to the 3 rd -year Internship Teams where important info (who is your Internship Advisor/ how to sign up for an appointment with your IA) and internship vacancies are posted	Read the info on TEAMS and sign up for an appointment with your Internship Advisor (IA)
March/ April September/ October	Individual internship intake interview and internship coaching with internship advisor	
1 July/ 15 December	Early deadline for handing in IPF to IA (if you need approval before or during summer break or the Christmas holidays)	Upload your IPF on the ISB Proposal Forms 3 rd year Teams
Flexible start dates Students are not permitted to start their internship between 10 May and 16 August	Students will receive feedback on their IPF within two weeks after submission (excluding holidays)	Upload your IPF on the ISB Proposal Forms 3 rd year Teams, see instructions and code in 3.2

The student can acquire an internship via:

- **JobTeaser**, the ISB Job platform: <https://han-internationalinternships.jobteaser.com>. On JobTeaser you can find internship vacancies from both the companies of the ISB preferred partners and the global network of JobTeaser. Internships from the ISB business network are marked as HAN Selected Partner. Students can register at JobTeaser by creating a student account profile and uploading their CV. Set your preferences and manage internship alerts to find the right internship and share your JobTeaser profile with international recruiters to get full exposure. You can apply for a position directly via JobTeaser. On JobTeaser you can also find tips and tricks for your application, tutorials on LinkedIn and your CV, and other useful information regarding finding the right international internship.
- **Career Fairs (virtual and at school)** Our international partner companies participate in sharing information with students and recruiting potential interns. You can register for our international career events and workshops through JobTeaser.
- **Internship Teams** : we have uploaded an Excel spreadsheet listing the companies and countries where our students are currently doing their internship. Research these companies by exploring LinkedIn, contacting recruiters, visiting their websites, or making phone calls. After researching, proceed to submit your application. Internship vacancies are also posted on the Internship Teams.
- **LinkedIn**. LinkedIn is a powerful tool to connect to companies and HR recruiters and to get access to and apply for their vacancies. LinkedIn has a great search function to find international internships. See our tutorial on JT on how to create your LinkedIn profile.
- **Company websites**
- **Your own network**, fellow students, alumni, family and friends.
- **Career portals** such as Glassdoor, Indeed, etc.

3.2 Procedure for approval internship and contracts

If you have received an internship offer, follow these steps to get approval for the internship:

1. Fill in **the Internship Proposal Form (IPF)**. You will find the instructions in Teams and on Brightspace. If you haven't been added to the teams channel, send an email to Internship Administration ISB.

Complete the Internship Proposal Form (IPF). The first deadlines for submitting the IPF are December 15th and July 1st. These deadlines apply to students requiring approval for their internship before the Christmas holidays or summer break due to an early start related to their minor.

Approval from the internship advisor (IA) is necessary to proceed with subsequent steps. **You cannot start your internship without your IA's**

approval. The approval date marks the earliest start date. Your IA will assign an ISB supervisor to you before the internship starts.

After the internship approval, fill in the **Internship Agreement** (Brightspace), as determined by HAN's Executive Board. **It is compulsory for all students** to be covered by HAN's company liability insurance. Please note that there are two versions of this agreement: one for students doing their internship in the Netherlands and one for students going abroad. Please send your signed agreement (by both the company and you) to Internship-administration.isb@han.nl. The admin will then sign the agreement on behalf of your IA and return it to you. **It is the student's responsibility to make sure that the agreement is used and signed by three parties (student, company and ISB).** Upload the HAN agreement signed by all parties in Handln together with your portfolio in week 19 of your internship.

Students can only sign the agreement and begin their internship after receiving approval from the Internship Advisor and meeting the internship threshold.

Students doing their internship outside the Netherlands have to fill in the **HAN registration form stay abroad** online (Brightspace). All internships outside the Netherlands should be registered by the International Office in case of emergencies. Students also need to fill in this online registration form to apply for scholarships (the Erasmus Grant), and to suspend their public transport card (OV retour).

Internship companies may ask the student to submit a document stating that the internship is a mandatory element of the ISB curriculum. This declaration can be found on Brightspace. The internship administration (internship-administration.isb@han.nl) can sign this document for you.

3.3 Insurance and visa

Students are fully responsible for ensuring that they have adequate insurance coverage during their internship abroad. Students who do their internship abroad are insured for professional liability (worldwide coverage) by HAN University according to local law and regulations.

However, it is strongly recommended that the student takes out comprehensive liability insurance, legal advice, travel insurance, including medical insurance to cover medical treatment, accidents and repatriation (which might require an air ambulance) in an emergency. If a student has private medical coverage, they should check with their insurance company to see if it covers foreign travel. If it does, they should find out how to use this coverage.

For certain countries students need a visa. Bear in mind that it is not allowed to do an internship on a tourist visa. The exact procedure and requirements for obtaining a visa depend on the internship country and on the student's nationality. For correct and up-to-date information, students are advised to contact the embassy of the country where they want to do their internship. Students are responsible for applying for the right visa.

It is strongly advised to visit the HAN insite and site of the Dutch government <https://www.nederlandwereldwijd.nl/reizen/reischecklist> and to check regularly whether there

are any travel restrictions for your internship country. Students should always follow these restrictions and not travel to countries or areas with the colour code red. Students can travel to countries or areas with code orange, provided they have signed a statement declaring that the internship is essential for their study progress and that they absolve HAN of all responsibilities.

HAN: [Travel advice](#)

3.4 Grants and scholarships

To help you finance your internship abroad, several scholarships are available. Below you will find two of the most common scholarships: the Erasmus scholarship and the Holland scholarship.

Erasmus Scholarship

For internships in a European country (European Economic Area, EEA) you can apply for the Erasmus scholarship. The grant amount depends on the country you are staying in. You can apply for this scholarship by filling in the online registration form. See Brightspace.

[Erasmus journey](#)

Holland Scholarship

For internships in a country outside of the European Economic Area (EEA), you can apply for the Holland Scholarship. This scholarship consists of a one-time grant of € 2.500. If you're going to do an *internship* abroad, it has to be with a partner university in order to qualify for the Holland Scholarship.

<https://www1.han.nl/insite/en/students/going-abroad/scholarships/holland-scholarship/>

Please contact the International Office for further info on scholarships and grants:
InternationalOffice@han.nl.

PART B: THE INTERNSHIP

ISB is committed to providing a safe environment for all students, both on campus and during the internship. If you encounter any safety issues, discrimination or any other form of undesired behaviour during your internship, inform your internship advisor. Your concerns will be treated seriously and handled confidentially.

4 SUPERVISION

Before the start of your internship, your IA will assign an internship supervisor to you. This supervisor is your primary contact during the internship and will assess your internship in week 20/21. This chapter gives information on the supervision and the tasks and responsibilities of the student, the company coach and the internship supervisor.

4.1 Briefing

All interns receive an invitation for the online internship kick-off session on 22 January 12.00 -13.00 hrs. During this session, important info concerning the supervision, communication, deadlines and assessment will be discussed.

Before the start of the internship:

- contact your internship supervisor for a meeting (either in person or Teams) to discuss the supervision and the procedures for communication and handing in the deliverables
- forward your approved IPF to your supervisor
- read this internship manual (Brightspace) before the meeting with the supervisor, so you can ask your supervisor to clarify any unclear points.

4.2 Tasks and responsibilities of the intern

During the internship several tasks and responsibilities belong to the student.

During the internship the student will be expected to:

- Write the required deliverables following the guidelines that are set out in this internship manual
- Hand in the internship reports on time, meeting all deadlines set in week 2 of the internship
- **Communicate with the supervisor during the internship**
- **Upload the internship portfolio report on Handin in week 19 of the internship**
- Submit the appraisal forms (interim and final) to the CC, allowing him/ her sufficient time to fill in the appraisals
- **Fill out and return the Business Connections survey**
- Schedule at least 3 official meetings with the company coach and the supervisor (introductory meeting, interim appraisal and CBI)

- Inform, analyse and reflect on the experience and the internship goals during the interim and final meetings with the supervisor and company coach
- Acquire in-depth insight into the operations of the company in which he/she works
- Behave according to the rules of the host company, for example, concerning times of work, safety, and dress code
- Contact the company coach, the supervisor and the Internship advisor when faced with serious problems affecting the progress of the internship/ study
- Immediately inform the company coach in case of illness and, if longer than 1 week, also your supervisor
- Reach out to the IA to get approval for any changes in the IPF (working online, dates, company coach)

Please note:

If students fail to communicate timely and frequently with their IS during their internship, to schedule an interim and final meeting with their CC and IS or/and to hand in the deliverables according to the deadlines, as set in Cycle 1, the internship cannot be assessed, which results in an insufficient grade (1) for the internship performance areas/ the internship.

Evaluation of the quality of the internship

The supervisor is responsible for:

- Evaluating and assessing the nature and level of the activities offered and carried out during the internship
- Ensuring that the instructions in the manual are followed (deliverables, assessment, deadlines)
- Attending an introductory meeting, the interim appraisal meeting and the CBI (either online or at the company)
- Attending the kick-off for new supervisors and one calibration session a year.
- Fill out the internship survey at the end of the internship

Supervision of the student

The supervisory tasks of the supervisor are:

- Monitoring the objectives of the internship and the student's responsibilities as outlined in the IPF
- Coaching the student by discussing the progress of the internship and giving constructive feedback on the student's performance
- Maintaining contact with the student and giving feedback on the deliverables (within two weeks after receipt of the report)

- In consultation with the company coach and student, evaluating and assessing performance and results, and if applicable, making suggestions for improvements
- Reaching out to the IA if the student fails to hand in the deliverables according to the deadlines, does not communicate with them etc.

Assessment of the student

The supervisor is responsible for assessing the internship. He/she fills in the final assessment form with a motivation for the final internship grade.

4.3 Tasks and responsibilities of the company coach

The company coach also has several tasks and responsibilities regarding the intern and the internship. The company coach:

- Introduces the trainee to the organisation and supervises progress. He/she ensures that the student is familiar with the company rules and the structure of the organisation
- Offers activities that are relevant to the objectives of the internship and in accordance with the tasks mentioned in the IPF
- Allows the student to work on his/her ISB internship assignments (on average 8 hours a week)
- Provides a (safe) workplace for the student, including the essential facilities, such as a desk, computer, etc.
- Makes sure that the trainee gets access to all relevant information/persons to write the internship reports
- Acts as the primary contact person for the student and the internship supervisor
- Coaches the student by discussing the progress of the internship, giving feedback on the student's performance, performance areas, professional attitude and internship goals
- Fills out the ISB internship survey
- Discusses the student's performance with the internship supervisor during the interim appraisal and CBI
- Evaluates the student's performance and progress by filling in the Appraisal forms 1 and 2 and attends the CBI (in person or on Teams) in week 20/21

4.4 Contact with the internship company by the supervisor

The student initiates and schedules an online meeting between the supervisor and the company coach in the first or second internship week. In week 11 of the internship the supervisor discusses the interim appraisal with the student and the company coach during an online or offline meeting. It is up to the supervisor to decide whether it is feasible/possible to visit the company during the internship. If the internship supervisor cannot visit the student during the internship, he/she will make sure to get ample input on the company, the tasks and performance during an online meeting. During the appraisal meeting, whether online or offline, the supervisor evaluates the internship, the student's performance, and the company coach's guidance. The student has the opportunity to discuss any internship-related concerns, while the coach can gain insights into internship objectives and the study program. These meetings also help HAN ISB strengthen relationships with internship companies. In weeks 20/21, the supervisor assesses the internship during the CBI, with the company coach present either in person or via Teams.

The interim appraisal can only take place if the IS has received the interim appraisal form and part A, B, and C (part 1 and 2) of Cycle 4.

The interim meeting is an essential part of the internship; if the student fails to organise an interim meeting with the company coach and the supervisor, the internship cannot be monitored and assessed, which will result in an insufficient grade (1) for the internship.

5 ASSESSMENT

At the end of the internship the student is assessed on the products developed for the company and the five internship performance areas:

Entrepreneurial behaviour with innovative and creative capacity
Collaborative capacity
Reflective practitioner
Intercultural proficiency
Investigative capacity

In the final internship portfolio report, submitted in week 19, the student reflects in detail on his/her performance and the five above-mentioned assessment performance areas. The student demonstrates and provides evidence that he/she has achieved the performance areas at the required level (level 2, see appendix B). All internship deliverables relate to these performance areas and help the student develop his/her performance areas. In the final internship week, the student is assessed during a Criterium Based Interview. In this chapter the time planning of the deliverables and further info on the assessment are given.

5.1 Time planning & deliverables

During the internship the student is expected to submit written reports to the supervisor about the progress and learning experience. The dates for submission of these reports must be adhered to. In the second week of the internship the student is required to submit an overview of the specific hand-in dates of all deliverables, which should be approved by the IS. The internship supervisor gives the student feedback on the reports within two weeks after receipt. If the student fails to meet the deadlines for handing in the deliverables according to plan, he/she will not get feedback from the internship supervisor on the draft portfolio report in week 17.

The student should report in writing to the supervisor about the internship by means of the forms and reports listed below. All reports should be written in professional Business English, as HAN ISB will only assess reports written in English. The reports should have a professional layout, structure, and style. This is also a knock-out criterion for the final assessment.

If applicable, reports must be accompanied by a list of reliable sources used, and references to these sources should be included in the text. To this end you are referred to the [guidelines](#) that are stated in the APA standards. See [Home – Guidelines to APA Style – Libguides at HAN University of Applied Sciences](#)

Read Appendix H for info on how to deal with the use of IA tools in the internship.

If the company requires a non-disclosure agreement for confidentiality reasons, the HAN has a standard form to be used, see Brightspace. This document should be signed by the company and HAN (internship administration).

Cycle	When	What	Who	How
Preparation	Week 0	Send IPF to IS Introductory meeting with IS, initiated by the student Schedule a meeting with the student, CC and IS for week 2	Student/ IS	In person/ Teams
Cycle 1 Personal planning and analysis	Week 2	A. Overview deliverables with the specific deadlines B. Personal Internship Plan C. Introductory meeting student, CC and IS	Student, approved by IS Student Student, CC, IS	Email/ Teams Email/ Teams Teams
Cycle 2 Department analysis	Week 5	A. Department Analysis B. IA policy C. Matrix final portfolio report	Student Student Student	Email/Teams Email/Teams Email/Teams
Cycle 3 Organisation analysis	Week 9	A. Business Canvas Model B. Justification report	Student Student	Email/Teams Email/Teams
Survey	Week 10	Fill in and return internship survey sent by the ISB Internship Administration (see info p. 12)	Student	Upload via link

Cycle 5 Context analysis	Week 15	A. CSR Scan B. Justification Report C. Report Company Culture	Student Student Student	Email/Teams Email/Teams Email/Teams
Cycle 6	Week 17	Draft version final portfolio report	Student	Email/Teams
Cycle 6 Reflection and evaluation	Week 19	DEADLINE: Final internship portfolio report (Including: signed final appraisal form and 360-Feedback forms) Strict deadline and non-negotiable See overview exact submission dates page 11, manual	Student Student CC 1 Colleague	HandIn
Assessment	Week 20/21	Criterion Based Interview (presentation plus evaluation)	Student CC IS	In person/ Teams
Completion	Week 20/21	Assessment form and grade	IS	HandIn
Internship grade	Week 21-23	Grade in Osiris	IS	

5.2 Procedure for handing in documents

- All forms and reports should be sent **by mail** to the supervisor or uploaded on Teams intern/IS (depending on the IS' preference).

- All reports should be handed in according to the deadlines set in Cycle 1
- In week 19 the student uploads the **complete final internship portfolio report** (all ISB deliverables, company products and signed appraisals in separate attachments) on HandIn (for codes see Brightspace), as one document. Including the HAN agreement or contract from the internship company. See Brightspace for further instructions. The supervisor gets a notification and assesses the internship. This is a strict deadline. See the overview on page 10 of this manual for the exact submission dates. **Any deadline extension needs to be approved by both the supervisor and the IA.** If the student misses this deadline, grade 1,0 will be entered in Osiris.
- After the CBI the supervisor uploads the final assessment form including the grade on HandIn and enters the grade in Osiris.

5.3 Assessment

During the internship, students must submit their deliverables as agreed on in the approved Cycle 1 (week 2). Regular communication with the supervisor is essential as it provides crucial insights into the internship, company dynamics, and the student's performance areas. Timely submission of reports and ongoing communication are necessary for the internship's assessment. Failure to maintain communication with the supervisor may result in the internship not being assessable.

The interim appraisal meeting in **week 10/11** is crucial for the internship. It involves the student, company coach, and supervisor and is mandatory for the final assessment. This meeting provides vital input for the interim performance report, without which the final internship portfolio cannot be completed or assessed, resulting in a grade of 1.0 in Osiris.

In **week 17**, the student submits the draft version of the portfolio report (refer to Chapter 5). The IS provides feedback on this draft, which the student incorporates into the final internship portfolio report. **The student can only submit a draft portfolio report (providing an additional feedback opportunity) if they have met the deadlines for submitting internship deliverables as set in Cycle 1.**

In **week 19** the student uploads the final internship portfolio report on HandIn. If the student misses this hand-in deadline, the grade is 1,0. In this case the student has two weeks to hand in the portfolio report (= resit, final opportunity).

The Criterium Based Interview can only take place if the portfolio report meets the conditions for assessment and if the portfolio report is sufficient (see assessment form).

The portfolio report should meet the following conditions for assessment:

- Completeness of the portfolio report (see checklist manual appendix E)
- Professional appearance of portfolio report, using advanced business English, a clear structure and layout, APA standards
- Appraisal forms (interim and final appraisal) signed by the company coach
- An interim meeting with CC and IS in week 10-12 and the minutes of this meeting

If the portfolio report does not meet these conditions, the student has the opportunity to repair it within three days. This repair only applies to the first opportunity, not the resit.

If the revised portfolio report still does not meet the assessment criteria (see above), the internship grade will be 1.0, resulting in a resit after two weeks.

If the portfolio report is not sufficient (more than 1 criteria with score 1 and total score < 12, also see assessment form appendix F) the internship grade is 4,0, resulting in a resit after two weeks.

The student has a feedback session with his/her IS and hands in the improved portfolio report within 2 weeks.

The student may take part in the CBI if the provisional score of the portfolio report is at least 11 with a maximum of one criteria of the portfolio report that scores 1.

The student schedules a meeting with the internship supervisor and the company coach for a Criterium Based Interview. This interview takes place in **week 20/21** (either in person or online). The CBI may only be postponed if the final internship week is just before or during the holidays and in this case the CBI will take place after the holidays.

In short:

- **Deliverables not handed in according to deadlines: no feedback on draft portfolio report**
- **The portfolio report not handed in on time: grade 1,0**
- **The portfolio report does not meet the conditions for assessment: grade 1,0**
- **Insufficient Portfolio report (see assessment form) grade 4,0**

The Criterium-Based Interview (CBI) starts with a 10-minute presentation by the student. During this presentation, the student discusses his/her internship, including tasks, goals, and areas of performance, using a PowerPoint. After the presentation, there is a 30-minute interview, during which the company coach also participates to provide valuable input and feedback. Throughout the presentation, the student reflects on their internship tasks in detail, with a particular focus on the 5 performance areas.

Interview topics include the internship company, personal and professional goals, internship experiences, autonomy, complexity of the tasks, deliverables, company products, and developed performance areas. The student receives feedback on their performance and portfolio report, and the internship is assessed. The supervisor evaluates and assesses the internship, using the appraisal forms from the company coach and two 360°-feedback forms.

If a student's CBI is insufficient, he/she must resit it within one week after the initial attempt. An insufficient grade in the third-year internship will require the student to complete a new third-year internship.

In short:

- **Insufficient grade after CBI: grade 4,0 and resit within one week (in consultation with the IS)**
- **Insufficient grade resit CBI: grade 4,0 (second attempt), new internship.**
- **Please note: student cannot resit both the CBI and the portfolio.**

6 DELIVERABLES

The following paragraphs outline the deliverables and deadlines for internship documents. All deliverables are short reports (please adhere to the page limits), except for the final portfolio report, which should reflect on your tasks, goals, and demonstrate mastery of the five internship performance areas.

Study the ISB policy and guidelines on the use of IA in writing company products and internship deliverables in appendix H.

6.1 Cycle 1: Personal Analysis

Deliverable:

A. Overview with specific deadlines (performance area: entrepreneurial behaviour with innovative and creative capacity), 1 page

B. Personal Internship Plan (PIP), max 2 pages
(Performance areas: collaborative capacity, reflective practitioner, intercultural proficiency)

Deadline: Week 2

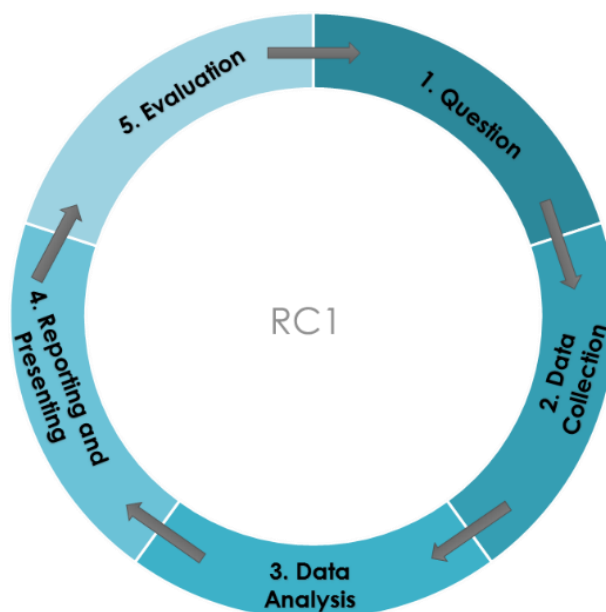

Fig. 1: Personal analysis

A. Overview with specific deadlines**Instructions assignment 1 A**

Study the overview of deliverables in paragraph 5.1 and add your specific hand-in dates in this table and share this document with your supervisor. The overview of your deadlines should be approved by your supervisor.

B. Personal Internship Plan

One of the main goals of your internship is to develop your personal, professional, and intercultural skills in an international environment. The internship is an excellent opportunity to learn from your experienced colleagues and to understand which skills you need to become successful in business. To turn your internship into a valuable learning experience you must set clear goals in the first week of your internship. After all, without clear goals to focus on you do not know if you are making progress. This period of reflection at the beginning of the internship proves to be an effective way to get the most out of the internship and to take charge of your own learning process.

Instruction assignment 1B:

Content Personal Internship Plan:

- a. Introductory sentence: introduce yourself, your tasks and your internship company.
- b. Define four goals: two intercultural goals (your IRC goals from D cluster), one personal and one professional goal, you want to attain during your internship and make sure your goals are aligned with the five **SMART** criteria (specific, measurable, attainable, relevant, and time-bound).
- c. Describe what appeals to you most about the internship and describe any difficulties you may encounter.
- d. Describe what you expect from your CC and your IS and indicate in which areas and how you would like to receive support and feedback.

6.2 Cycle 2: Department Analysis**Deliverables:**

- A. Department analysis: Infographic (performance area: investigative capacity), 1,5 pages**
- B. AI policy and use PowerPoint and recording (investigative and entrepreneurial skills with an innovative and creative capacity, and collaborative and reflective capacity), 5 slides, 3 minutes recording**
- C. Matrix for final internship portfolio report (performance area: reflective), 1 page**

Deadline: Week 5

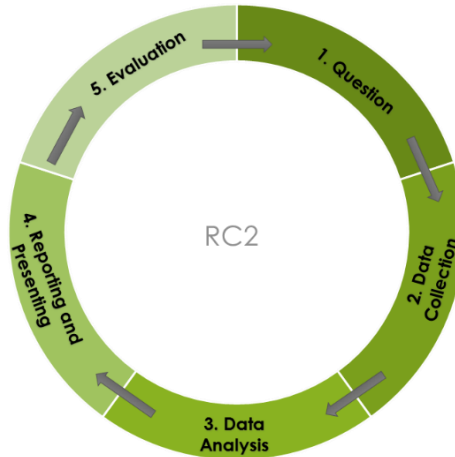

Fig. 2: Department analysis

A. Department analysis and infographic

To fully understand your tasks and your role as an intern at the company, it's essential to grasp the purpose of your department and how it contributes to the organisation's overall performance. Therefore, you have to do research on your department during the first weeks of your internship.

Instruction assignment 2A:

- First analyse the activities of the department, including your own activities, and determine the added value of the department for the organisation. Conduct two informal “coffee talks” with two colleagues of your department to gain deeper insight into the department's activities and the individual experiences of these two colleagues.
- Use all the information to create an infographic for the department analysis. Be creative in your design. Include a brief paragraph explaining the infographic and mention the two colleagues you consulted.

This report will help you develop the internship performance area: **investigative capacity**.

B. AI Policy and Use

At the start of your internship, you will explore how Artificial Intelligence (AI) is used within your internship company and whether there are any internal rules or guidelines for using it. This will help you understand how to use AI responsibly during your internship.

Study internal documents (e.g. an IT policy, company handbook, or code of conduct) and interview colleagues to get an answer to the following questions.

1. Does the organisation have an AI policy or rules for using AI tools?

- If yes: What are the most important rules or guidelines?
 - If no: Who decides when and how AI is used in the company?
-

2. What AI tools are used in your department? (if at all)?

Give examples if possible and explain how these tools are used.

This could include:

- ChatGPT/ CoPilot etc. or other writing assistants
 - Customer service chatbots
 - Automated emails or marketing tools
 - Data analysis or forecasting systems
 - HR tools that help screen CVs
-

3. How does the company handle the following topics when using AI tools:

- **Data privacy:**
Are there rules about what kind of data AI tools can access or use? Are there limits on using personal or customer data?
 - **Transparency:**
Are customers, employees, or users informed when AI is being used to make decisions or create content?
 - **Human control:**
Are important decisions always reviewed or approved by a person, or are some fully automated?
 - What **opportunities or risks** could AI bring in this context?
 - Give **one practical recommendation** for the company regarding AI use or awareness
-

4. What does this mean for you as an intern?

- Are you allowed to use AI tools like ChatGPT, Grammarly, or others during your internship?
- Are there any rules or restrictions you should follow?
- Do you know whom to ask if you're not sure whether using a tool is allowed?
- Do you intend to use AI for your deliverables and internship portfolio and if so why and how? Have you discussed this with the company coach and have you checked whether this is permitted?
- What have you learned from this assignment?

Deliverable: design a PowerPoint (max 5 slides) and record a 3-minute PPT audio recording presenting your findings. The end slide should mention your sources, interviewees, etc.

This AI deliverable will help you to develop your **investigative and entrepreneurial skills with an innovative and creative capacity, and collaborative and reflective capacity.**

C. Matrix final internship portfolio report

Study the final assessment form in Appendix F or on Brightspace and the instructions for the final internship portfolio report Cycle 6. The final internship assessment is essentially based on your final internship portfolio report. In this portfolio report, you demonstrate that you have achieved the five internship performance areas during your internship:

- Entrepreneurial behaviour with innovative and creative capacity
- Collaborative capacity
- Reflective practitioner
- Intercultural proficiency
- Investigative capacity

In your final portfolio report you give examples and provide evidence from both the internship and company products (such as brochures, websites, research reports, and presentations). These pieces of evidence can either be a written document or a video or other multimedia formats. In other words, for the final portfolio report you give an overview of your tasks/ work and internship deliverables, linking them to one of the five internship performance areas.

It might be hard to remember all tasks or projects from the first internship months in week 17 when you are writing your final internship portfolio report. Therefore, to help you start collecting evidence for your final portfolio report you are asked to design a matrix with the 5 performance areas and your internship tasks/ deliverables in week 5 already.

Instruction assignment 2C:

Design a matrix with the 5 performance areas and your internship tasks/ deliverables in week 5 already. You can use the example below or design a matrix yourself.

Matrix Example

Capacity	Internship deliverables	Work deliverables/tasks
Entrepreneurial		Creating website content
Collaborative		Setting up weekly meetings
Reflective	BC survey	
Intercultural		
Investigative	AI policy and use	Research project

Update this matrix for Cycle 4 and Cycle 6 so you can receive feedback from your IS and CC on the performance areas you have developed during the internship. The matrix will also help you to easily identify performance areas you need to focus on more.

6.3 Cycle 3: Organisation Analysis

Deliverables:

- A. Business Canvas Model, infographic and textual description of the key elements, 2 pages (performance area: investigative capacity)**
- B. Justification report of the analysis process, max. 2 pages (performance area: investigative capacity)**

Deadline: week 9

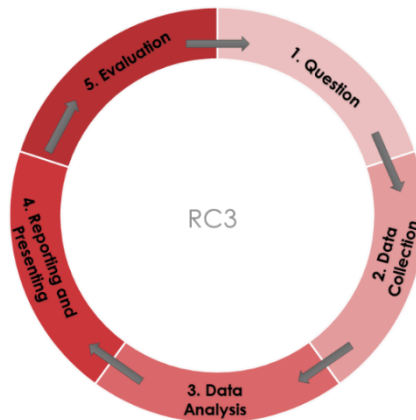

Fig. 3: Organisation analysis

A. Business Canvas Model

Background info

To be able to work as an intern in an organisation, it is essential to gain knowledge about the organisation (e.g., purpose, mission, vision, core values, strategy, culture, financial situation) and its environment (what market are we in, who are our main customers, who are our competitors). Without this knowledge it is impossible to perform well and to meet the expectations of the organisation. During your internship you have to demonstrate the ability to do research by applying a business model: The Business Model Canvas -BMC - (Osterwalder A., 2010, Strategyzer).

The Canvas model is a strategic management template, a visual chart with the key elements of an organisation. By using this model, you will be able to analyse your internship organisation in an easy and structured way. Use your knowledge gained during the first and second year (Essentials of an Organisation, Organisation and Change, Management, Organisation and Change). Gain deeper insight into company's strategy and design, and define the company's value proposition, key activities, key resources, cost structure and revenue streams, the company's key partners, customer segments, customer relationships, and channels. Acquire the info by doing desk research, using relevant sources (APA), and interviewing 2 colleagues.

The interviews with your colleagues are formal interviews, so take notes/ record the interviews and add a summary of the interviews as an attachment. Both desk- and field research results in a BMC infographic and a brief textual description of the 9 key elements. In the textual description, you also refer to the secondary sources (in-text references in line with APA) and the interviews.

Instructions 2A

Fill in the template for your company. Furthermore, for each Key element add a brief explanation or elaboration (max 1 page).

This report will help you to further develop your **investigative capacity**.

Key Partners 	Key Activities 	Value Propositions 	Customer Relationships 	Customer Segments 
Who are our key partners? Who are our key suppliers? Which Key Resources are we acquiring from partners? Which Key Activities do partners perform? Motivations for partnerships <i>Optimization and economy</i> <i>Reduction of risk and uncertainty</i> <i>Acquisition of particular resources and activities</i>	What Key Activities do our Value Propositions require? Our Distribution Channels? Customer Relationships? Revenue streams? Categories Production Problem Solving Platform/Network	What value do we deliver to the customer? Which one of our customers' problems are we helping to solve? What bundles of products and services are we offering to each Customer Segment? Which customer needs are we satisfying? Characteristics Newness Performance Customization "Getting the Job Done" Design Brand/Status Price Cost Reduction Risk Reduction Accessibility Convenience/Usability	What type of relationship does each of our Customer Segments expect us to establish and maintain with them? Which ones have we established? How are they integrated with the rest of our business model? How costly are they? Examples Personal assistance Dedicated Personal Assistance Self-service Automated Services Communities Co-creation	For whom are we creating value? Who are our most important customers? <i>Mass market</i> <i>Niche market</i> <i>Segmented</i> <i>Diversified</i> <i>Multi Sided Platform</i>
	Key Resources  What Key Resources do our Value Propositions require? Our Distribution Channels? Customer Relationships? Revenue Streams? Types of resources <i>Physical</i> <i>Intellectual (brand patents, copyrights, data)</i> <i>Human</i> <i>Financial</i>		Channels  Through which Channels do our Customer Segments want to be reached? How are we reaching them now? How are our Channels integrated? Which ones work best? Which ones are most cost-efficient? How are we integrating them with customer routines? Channel phases - Awareness How do we raise awareness of our company's products and services? - Evaluation How do we help customers evaluate our organisation's Value Proposition?	

			3. Purchase How do we allow customers to purchase specific products and services? 4. Delivery How do we deliver a Value Proposition to customers? 5. After sales How do we provide post-purchase customer support?
Cost Structure  What are the most important costs inherent in our business model? Which Key Resources are the most expensive? Which Key Activities are the most expensive? Is your business more Cost Driven (leanest cost structure, low price value proposition, maximum automation, extensive outsourcing) Value Driven (focuses on value creation, premium value proposition) Sample Characteristics Fixed Costs (salaries, rents, utilities) Variable Costs Economies of scale Economies of scope	Revenue Streams  For what value are our customers really willing to pay? For what do they currently pay? How are they currently paying? How would they prefer to pay? How much does Revenue Stream contribute to overall revenues? Types Asset Sale Usage fee Subscription Fees Lending/Rending/Leasing Licensing Brokerage fees Advertising Fixed Pricing List price Product feature dependent Customer Segment dependent Volume dependent Dynamic pricing Negotiation (bargaining) Yield Management Real-Time-Market		

Below you will find an explanation of the 9 key elements of the Business Model Canvas.

Value Proposition

A company's value proposition refers to the value a company promises to deliver to its customers. What kind of value does the company deliver (example: best price or service)? What problem does the company try to solve for its clients? A value proposition can be presented as a business or marketing statement that a company uses to summarise why consumers should buy a product or use a service.

Key Activities

What are the most important activities in executing a company's value proposition?
What are the main activities of the company for a successful value proposition? How does the company gain new clients and how can the company retain its current clients?

Key Resources

Key resources are considered assets to a company that are needed to sustain and support the business. The people, knowledge, means, and money you need to run a business.
Which resources are required for a successful value proposition? Which resources are required for distribution? Which resources are required for CRM?

Cost Structure

This describes the most important financial consequences while operating. This can be Cost-Driven (for example low-cost airlines) and Value-Driven (for example Rolex watches).
What are the most important costs within the business model?
What are the costliest key activities and key resources?

Revenue Streams

The way a company makes income from each customer segment.
How much are your clients willing to pay for your product?
What does the revenue model of the company look like?

Key Partners

List the partners that the organisation does business with (not suppliers): who are the most important partners? Which roles do the most important partners play? How can the organisation be successful along with partners?

Customer Segments

Distinct types of customer segments include Mass Market (e.g., for Car), Niche Market (e.g., Rolex), Segmented (the business may further distinguish its clients based on gender, age, and/or income), Diversify, Multi-Sided Platform / Market. What are the most important client groups? To which segments does the company deliver? For whom can the company create the most value? Look for the segments that provide the most revenue.

Customer Relationships

To ensure the survival and success of any business, companies must identify the type of relationship they want to create with their customer segments. Which relationship does the organisation need to build with specific client groups? How long is the relationship with clients? What relationship with clients is there now? How does this show up and how does the company maintain the relationship?

Channels

How do you communicate with your customers? How do you deliver the value proposition?
Via which channels does the company need to get in touch with the client? In what manner does the company sell to clients? Which channels work best? Effective channels will distribute a company's value proposition in ways that are fast, efficient, and cost effective.

B. Justification report

In the justification report you explain how you have conducted the research for the Business Canvas Model. Mention the secondary sources you have used for the analysis (**APA**) and why. Reflect on aspects such as reliability, validity, and accuracy. Regarding the two interviews, what criteria did you use to select the interviewees, when did you do the interviews, what was the duration, what questions did you ask? **Add a summary of the interviews.** Finally, you explain how you analysed the results of the interviews and what conclusions you can draw from them. Use the templates **Justification of desk research** and **Justification of interviews** below.

JUSTIFICATION OF DESK RESEARCH SOURCES (CARS CRITERIA)

Source reference (Author, title, publication date etc, according to APA standards)	Credibility	Accuracy	Reasonableness	Support

JUSTIFICATION OF INTERVIEW

INTERVIEW DESIGN

Interview questions	Justifications (why this question, how does this relate to the model/theory)
1.	
2.	
3.	
....	

Respondents	Justifications (why this person? What do they do/their position in the organization? Their relevance for the analysis?)
1.	
2.	
3.	
.....	

INTERVIEW DOCUMENTATION

Name interviewee	Position/task	Date/location	Interview length	Results

6.4 Cycle 4 Professional Analysis

Deliverables:

- A. 360° - Feedback form (performance areas: entrepreneurial behaviour with an innovative and creative capacity)**
- B. Interim Appraisal form**
- C. Interim Performance report, max 5 pages (performance areas: reflective practitioner, collaborative capacity, intercultural proficiency)**

Deadline: week 10/11

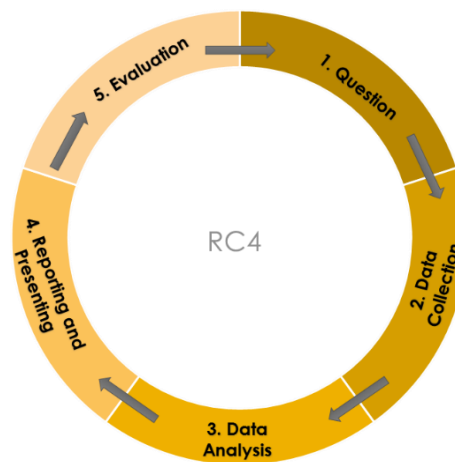

Fig. 4: Professional analysis

After 10 weeks it is time to reflect on your internship and your performance. Schedule a one-hour meeting with your company coach and ISB supervisor for week 11 to evaluate your internship tasks, your internship deliverables and company products, and to get feedback on your performance.

This interim meeting also gives essential input to the supervisor for the final assessment of the internship and, therefore, is a mandatory part of the internship.

In preparation for this meeting:

1. Ask your company coach to fill in the appraisal form
2. Ask two close colleagues to complete the 360°-degree feedback form
3. Write the first part of your Interim Performance Report (part 1 + 2) , see instructions below.
4. Set an agenda for the meeting
5. Share documents 1-4 with your IS at least one week before the meeting
6. Fill in and return the survey (link sent to you by email in week 9 of the internship)

The meeting can only take place if you have shared Cycles 1-3 and the above-mentioned documents with your IS at least one week in advance, so he/she can read all documents and prepare for the meeting. These three documents (360°-feedback, interim appraisal and the first part of your interim performance report) will be discussed during the appraisal meeting in week 11.

A. 360° Feedback

The 360° Feedback Form (available on Brightspace) is designed to gather feedback on your performance from two colleagues who know you well. Please ask two colleagues (and avoid fellow interns) to complete this form. After they have filled it out, engage in a discussion with them about their feedback. You can incorporate this feedback into your reflection report and use it as a basis for setting your goals for the second part of your internship.

B. Interim Appraisal Form

Ask your company coach to fill in the appraisal form (Brightspace) and to add his comments and examples to evaluate your performance.

C. Interim Performance Report

This interim performance report consists of four parts:

1. a **brief** interim reflection report (to be handed in before the appraisal meeting)
2. the matrix with the performance areas (to be handed in before the interim appraisal meeting)
3. the minutes of the interim appraisal (to be handed in after the meeting)
4. the personal internship plan 2 (to be handed in after the meeting)

4C.1 Interim reflection report

To prepare for the interim appraisal meeting with your company coach and internship supervisor write the interim reflection report in which you briefly reflect on:

- your performance and internship in general
- your 4 internship goals using the STARR (Situation, Task, Actions, Result and Reflection) to illustrate your progress

If you believe that you have achieved a goal, add a new goal for the final part of the internship. If you find that your action plan for achieving a goal was ineffective, you should revise the action plan for that goal for the second part of the internship.

4C.2 Matrix

In cycle 2, you designed a matrix for your final portfolio report. Fill in and update this matrix, giving evidence (e.g., your internship deliverables, your company products, tasks etc.) and explain how you have developed the 5 internship performance areas so far and where you stand after 10 weeks. Furthermore, mention which performance areas you should further develop and focus on during the second part of your internship.

4C.3 Minutes Interim Appraisal

Take notes during the appraisal meeting with your company coach and your supervisor and summarise the feedback you received and write an action plan (with bullet points) for the second part of the internship (max ½ page).

4C.4 Personal Internship Plan 2 (if applicable)

Based on the feedback during the meeting, you may want to redefine or fine-tune your goals as discussed in the interim reflection report. If so, mention your adjusted or new goal(s) (**SMART**) for the second part of the internship.

This Interim Performance Report will help you to further develop your **reflective, collaborative, and intercultural proficiency**.

6.5 Cycle 5 Context Analysis

Deliverables:

- A. CSR Scan (performance areas: investigative, entrepreneurial behaviour with an innovative and creative capacity), max 2 pages
- B. Justification report, max. 2 pages
- C. Report Company Culture (performance areas: reflective practitioner and intercultural proficiency), 3 pages

Deadline: Week 15

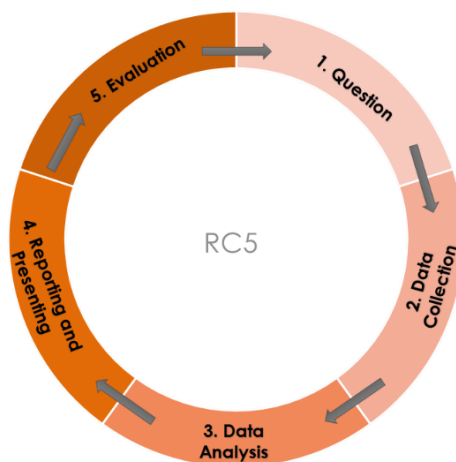

Fig. 5: Context analysis

A. CSR Scan

With a growing awareness and worldwide interest in corporate social responsibility (CSR) many companies have embraced this topic by developing business plans and using their policy as a selling point.

Scan the CSR policy of your internship company, paying attention to all aspects of sustainability: profit, people, and planet. Bear in mind that your internship company may use different terms to refer to CSR, such as corporate responsibility, global development goals, corporate social responsibility, etc.

Gather information through desk research (company website, annual report) and conduct field research by performing two interviews to answer seven questions. Below are five questions; please add two of your own that relate to your area of interest, people, profit, or the planet. For one of the questions, provide recommendations for the company on how to further develop this aspect and support your recommendations with motivation.

Write a report (max 1 page, with an introduction, body and conclusions) in which you discuss your findings.

If your internship company has not developed a sustainability policy, do research and give practical advice to the company on initiatives they could take to implement CSR and which areas they could focus on and why.

Questions:

1. Does the company have a written **mission statement** or a policy that includes a commitment to social and environmental responsibility and shares and promotes its CSR policy on the website/ to clients. If so, include the mission statement/ policy.
2. Does the company have a written **code of ethics**? If so, include this code.
3. **People**: How does the company support employee well-being?
4. **Planet**: What steps has the company taken to reduce its environmental impact?
5. **Profit**: How does the company integrate sustainability into its business model?

Add 2 more questions

This CSR scan will help you to develop your **investigative and entrepreneurial skills with an innovative and creative capacity**.

B. Justification report

In the justification report you discuss how you have conducted the research for the Sustainability Scan. Mention the secondary sources you have used for the analysis (**APA**) and why. Reflect on aspects such as reliability, validity, and accuracy. Regarding the two interviews, what criteria did you use to select the interviewees, when did you do the interviews, what was the duration, what questions did you ask? Add a summary of both interviews. Finally, you explain how you analysed the results of the interviews and what conclusions you can draw from them. Use the templates **Justification of desk research** and **Justification of interviews** below.

JUSTIFICATION OF DESK RESEARCH SOURCES (CARS CRITERIA)

Source reference (Author, title, publication date etc, according to APA standards)	Credibility	Accuracy	Reasonableness	Support

JUSTIFICATION OF INTERVIEW

INTERVIEW DESIGN

Interview questions	Justifications (why this question, how does this relate to the model/theory)
1.	
2.	
3.

INTERVIEW DOCUMENTATION

Name interviewee	Position/task	Date/location	Interview length	Results

C. Company Culture

You have worked for your internship company for about three months now and have very likely experienced intercultural differences at work or even culture shock. Cultural differences are interesting and enriching. Understanding cultural differences is essential for effective collaboration and improving workplace relationships.

Trompenaars' 7 Dimensions (Nunez et al, 2021) will help you get a better understanding of the company culture. The central theme of your second report is to analyse the company culture, using Trompenaars' 7 Dimensions of culture.

Background info

In their book *Riding the Waves of Culture* (Trompenaars & Hampden-Turner 2004) Trompenaars and Hampden-Turner distinguish three basic categories, namely Relationships with People, Attitudes to Time and Attitudes to the Surrounding Environment. The first category, Relationships with People, can be subdivided into five dimensions: universalism vs. particularism, individualism vs. communitarianism, neutral vs. affective emotions, specific vs. diffuse involvement and achieved vs. ascribed status. For this cycle, you will focus on these five dimensions.

Instruction assignment 5C:

Use the following framework for your report:

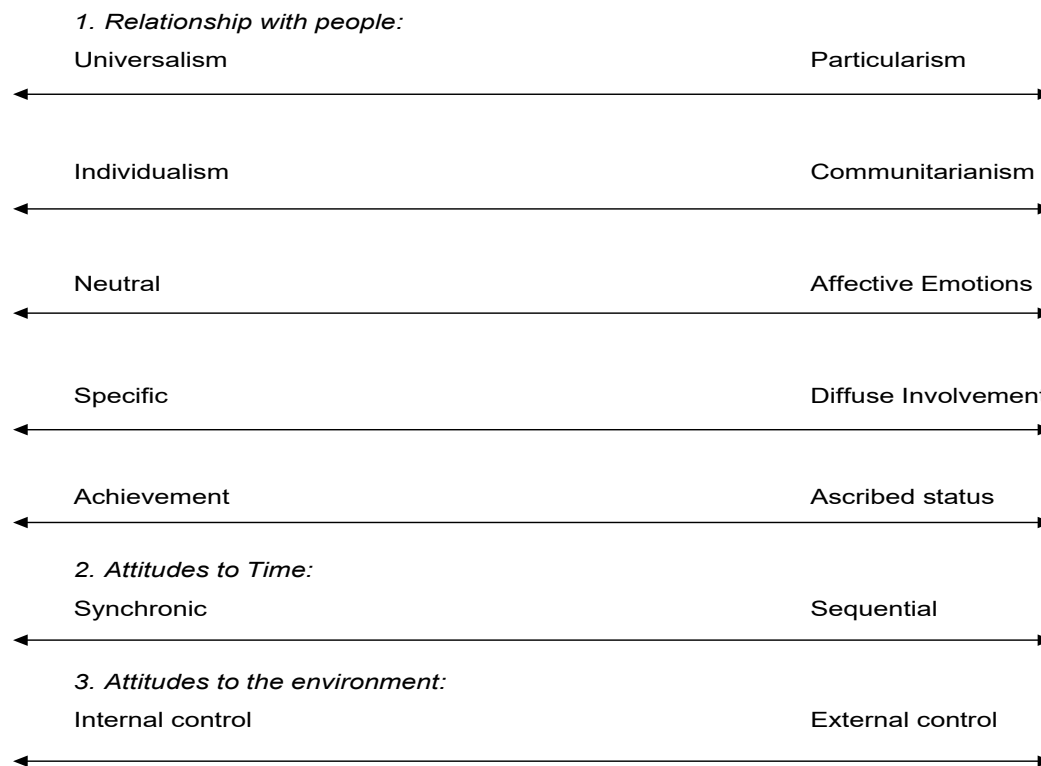

Introduction

Introduce the company culture

Body

Step 1.

For your report simply copy and paste the schedule below and indicate with the letters C and I where your company is in each dimension (C) and where you are in each dimension (I). For each dimension give a brief example for both you and your company to clarify your company's and your personal position on the dimension.

Step 2.

Analyse where you find the biggest similarity and difference.

Step 3.

Dive deeper into **one** of these seven dimensions by giving an example of a specific situation that you experienced at the internship company that was interculturally challenging to you.

How did you deal with this situation? Were you able to adjust, and if so, how?

Conclusion

Mention what you have learnt from this situation and which strategy you have developed to achieve intercultural effectiveness and personal growth.

Writing this report helps you to develop the performance areas: **intercultural, reflective, and collaborative capacity.**

6.6 Cycle 6 Final Reflection and Evaluation

Deliverable:

Final internship portfolio report

Including the final appraisal form and 360-degree feedback forms

Max 17 pages (without appendices).

Deadlines:

Draft version internship portfolio report: **week 17**

Final version internship portfolio report: **week 19**

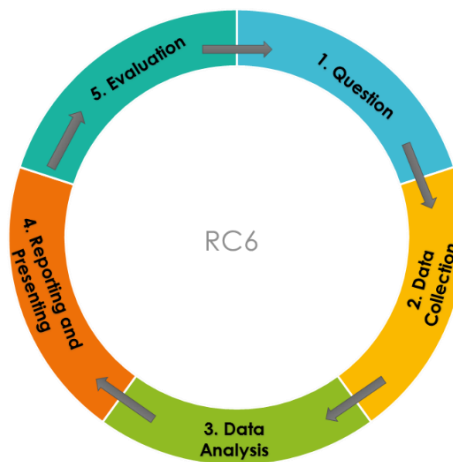

Fig. 6: Reflection and evaluation

A. Final internship portfolio report

During your internship you have worked on various assignments for the company, you have collaborated with your colleagues, reflected on your performance, and discussed the company culture and its AI policy. You have analysed the company and its external environment and completed a sustainability scan. In the final research cycle, all your reports come together. In the internship portfolio report, you evaluate your internship and reflect on your internship goals and the performance areas you have developed during the internship.

The final internship portfolio report is a report, so use the format of a report with a proper introduction, chapters, paragraphs and your conclusions.

The portfolio report should include the following elements:

- **Cover Page**
- **Preface**
- **Table of contents**
- **Chapter 1 Introduction**

Introduce your internship, the company, and the department.

- **Chapter 2 Evaluation**

The internship company

Discuss the suitability of the company and the department, and the supervision of the company coach.

The internship tasks

List your main tasks performed during the internship. For each task reflect on the complexity, autonomy (individual or teamwork) and the relevance of your tasks for the company (see Appendix B Aucom model) and mention whether you enjoyed working on the task or experienced stress. Link your tasks to professional products in the appendices and to specific performance areas.

- **Chapter 3 Internship performance areas and related activities**

During your internship you have focused on the following internship performance areas:

entrepreneurial behaviour with innovative and creative capacity

collaborative capacity

reflective practitioner

intercultural proficiency

investigative capacity

Complete the matrix from Cycle 2 by adding tasks or activities performed in the latter part of your internship. For each performance area, provide evidence using the STARR model or another reflection method. Use specific tasks, professional products, internship deliverables, or feedback from your company coach or colleagues to demonstrate your competence. Consider using the indicators mentioned in the assessment form. Ensure all claims are backed by evidence in your portfolio, e.g. a professional product or feedback received from a colleague.

- **Chapter 4 Reflection on personal, professional and intercultural goals**

In the final reflection report at the end of your internship reflect on your 4 internship goals and to assess which goals you have attained. It is also the right moment to reflect on your strengths and weaknesses based on your internship experience and the career you would like to pursue after your graduation.

In **part A** of this chapter, you look back on your internship and in **part B** of this chapter you look forward to your graduation year and your professional career.

Part A

Reflect on your 4 goals (defined in Cycle 1 and 4). Simply stating that you have achieved certain goals is not enough so apply the **STARR** methodology here to evaluate your goals. If applicable, explain why you have not been able to achieve certain goals.

Part B

One of the primary objectives of the internship is to gain insight into your career aspirations and to help you understand which career path might be right for you. We hope that this internship experience has guided you in determining your future goals. Consider what kind of industry, company, and position would be ideal for you. Additionally, reflect on your strengths and weaknesses, as well as what truly brings you happiness.

In short: what is your dream and how can you realise this dream? To help you get a grip on this challenging process, copy and fill out the following table adding skills, tasks etc.

Hidden treasures (what I am not good at but enjoy) * * *	Strengths (what I am good at and enjoy) * * *
Weaknesses (what I am not good at and do not enjoy) * * *	Strenuous gifts (talents or gifts that drain your energy, so what I am good at but do not enjoy) * * *

(Kian, K., 2019, What is Water?)¹

Use the tasks/ skills/ talents mentioned in this table to describe your ideal future position, company.

As you may know you have to conduct research in G cluster. Your internship may have inspired you or sparked your interest in a particular topic linked to your specialisation/Cs

focus area you would like to dive into and would like to know more about. Mention a topic you would like to research and explain why you are interested in this topic.

- **Chapter 5**

- **Signed appraisal forms of the company coach**

Ask your company coach to complete the appraisal form and to add his comments and examples to evaluate your performance.

- **Signed 360°-degree feedback forms**

Ask your colleagues (not a fellow intern) to fill in the 360° degree feedback form again.

Reflect on the feedback given by your company coach and colleagues

- **Conclusions**

- **Bibliography**

Add the list of sources used to write the portfolio (APA) and deliverables, including the use of IA and prompts (see Appendix H for guidelines)

- **Appendices**

All deliverables from Cycle 1-5 should be included in the appendix

Add your work deliverables, such as the projects, research, social media plan, website improvements, marketing plans, etc., you worked on for the company and present evidence of all your tasks (Excel sheets, photographs of documents, are accepted as well).

Include all internship deliverables (all your reports for the Cycles 1-5), and the company products in the appendix. Use the checklist in Appendix E.

APPENDIX A: Internship tasks

Organisation & Change

<i>Tasks</i>	Analysing organisational problems and needs and recognizing innovation needs Designing and advising on improvement evidence based effective & efficient organisational processes Advising on and supporting implementation of change processes Evaluating the effectiveness of a change process	
<i>Professional Products</i>	Analysis report Advice Report Project plan / management Business Plan	Business Intelligence Learning & development program Process improvement Performance review
<i>Knowledge</i>	Business strategy Organisational Design Organisational behaviour Performance management Innovation Change management Project management	
<i>Skills</i>	Conceptual skills and integral thinking Advisory skills Communicative, interpersonal, cross-cultural, cross-functional and networking skills Leadership, motivating and decision making skills	

Marketing & Sales

<i>Tasks</i>	Operational - international marketing department Setting up campaigns Analyzing sales and market data Generating online leads (B2B and B2C) Supporting international market research and entry strategy development Contacts with clients Advising on drafting quotation Accompanying account manager	
<i>Professional Products</i>	Marketing plan Communication plan Export plan Sales plan Quotation Market Research Customer Relationship Management Event management E-commerce strategy	Account plan Business Plan Business Intelligence Campaign Employer branding Marketing analytics Social Media strategy Lead generation Pitch + demonstration
<i>Knowledge</i>	Marketing Market research Analysis market data Marketing advice	Sales Negotiate Account Management e-commerce
<i>Skills</i>	Analytical skills Research skills Negotiating skills Sales pitch (Business) communication in multiple languages	

Finance

<i>Tasks</i>	Supporting design & maintaining financial and process models Interacting with various disciplines to obtain data, opinions, facts Organising & analysing data, opinions, facts Measuring and discussing performance in financial and non-financial terms Developing alternative solutions based on requirements, literature and knowledge and analysing consequences of alternatives Presenting findings & recommendations to all disciplines in a convincing manner	
<i>Professional Products</i>	Analysis reports as an input for strategic & tactical decisions Reports describing problems, causes and possible solutions with (financial) consequences Advice reports on administrative organisation, quality control and risk management.	Business Process Management Enterprise Resource Planning (ERP) Budget report Controlling Business Intelligence Working financial & process models
<i>Knowledge</i>	Financial and accounting models Corporate Finance ERP systems & IT & Big Data Performance Management Business Processes Quality Control Administrative organisation Risk management External reporting	
<i>Skills</i>	Research skills Analytical skills Advisory skills IT skills	

Supply Chain

<i>Tasks</i>	Investigating and analysing developments and translating these to consequences Formulating policies for logistics Developing relationships, networks Planning & executing logistics processes Assisting and supporting improvement and change of logistics processes Applying management models like SCF and ETO Monitoring performance in logistics operations using e.g., BSC, identifying problems, diagnosing causes & recommending solutions	
<i>Professional Products</i>	Optimized logistic processes Analysis reports showing consequences of external and internal developments Advice reports Business Intelligence Sourcing strategy	Value Chain analysis / management Quality Assurance (Quality, Environment, Safety and Health) Trade compliance LEAN / Six sigma E-fulfilment
<i>Knowledge</i>	Procurement Production processes Inventory Management Distribution / Warehousing Transport & Transport planning ERP & IT & Big data Supply chain finance Supply chain risk management	
<i>Skills</i>	Research skills Analytical skills Advisory skills IT skills	

Communication

<i>Tasks</i>	Operational – international communication department (or HR/Marketing) Analysing research data Supporting research and strategy development Contacts internal and external stakeholders Advising communication plan (online/offline) Accompanying communication manager	
<i>Professional Products</i>	Communication plan (corporate, internal, external) Branding plan Public Relations plan	Online communication plan Content plan Media plan
<i>Knowledge</i>	Internal communication External communication Corporate communication Marketing communication Branding Research Public Relations Online Media Content management	
<i>Skills</i>	Communication Analytical Research Negotiation Presentation	

APPENDIX B: 3rd-year Internship Performance areas and Tasks on Level 2

Level	Competence	Task complexity	Context Complexity	Autonomy
1.	You can do simple tasks with guidance in a familiar environment.	Tasks are clear, short, and follow a fixed routine. You only need basic knowledge.	The environment is stable and predictable. You work with a small group of people.	You follow instructions closely. You need coaching and check in regularly.
2.	You can do routine tasks on your own, or help with harder tasks when supported.	Tasks are partly familiar but sometimes need adjusting. You use some specialized knowledge.	The environment can change, but it's still manageable. You work with several people across departments.	You ask for help when needed, but take initiative. You handle minor changes yourself.
3.	You can handle complex tasks on your own in a changing and challenging environment.	Tasks are complicated and may not have a fixed method. You use advanced or mixed knowledge.	The environment is busy and unpredictable. You deal with multiple teams and cultures.	You work independently and make well-thought-out choices. You handle unexpected problems and improve your work.

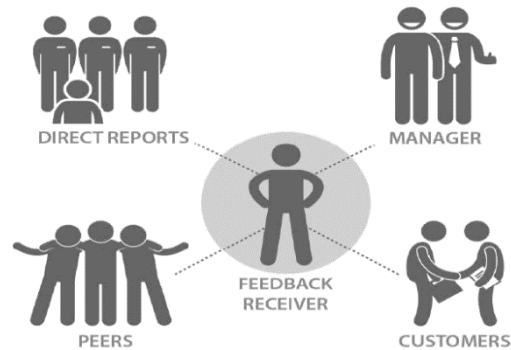

Based on AUCOM Model (Bulthuis 2011)

APPENDIX C: Appraisal Form

Appraisal form company coach

International School of Business

3rd year internship – IB & CS

Student name		Date	
Student number			
Company coach		Position	
Company			
Department			
Signature company coach			

Thank you very much for coaching our HAN ISB student during his/her internship at your company. The 3rd-year internship is the student's first experience in business and first opportunity to put his/her theoretical knowledge into practice and apply his/her business skills. Your valuable input and feedback and feedforward on his/her performance will help the student grow and further develop his/her skills and knowledge.

Please rate the student based on your recent experience with him/her and add your motivation. For more detailed indicators for each capacity, see indicator examples 3rd-year internship. The value of the appraisal process depends on your open, realistic and constructive feedback, identifying areas of improvement and giving examples.

Please provide a score per performance area and explain the reasoning for the scoring.				
1: Unsatisfactory - 2: Sufficient - 3: Good - 4: Outstanding				
Performance areas	Scores interim appraisal	Motivation and tips for further development	Scores final appraisal	Motivation and tips for further development
Entrepreneurial behaviour with an innovative and creative capacity. <i>The ability to recognise and respond to changes in the business environment by developing creative ideas and innovative solutions to improve the organisation's success.</i>				
Collaborative capacity <i>The ability to collaborate effectively with different stakeholders in different cultural and organisational landscapes to realise the agreed goals using a project-based planning and within the determined budget.</i>				

Intercultural proficiency <i>The ability to recognize cultural diversity within a professional environment, to use the benefits and reduce pitfalls of diversity and communicate effectively in an international setting.</i>				
Reflective practitioner <i>The ability to take responsibility for your own personal and professional development, even in an unfamiliar or changing environment.</i>				
Investigative capacity <i>The ability to conduct research into developments of the internal and external environment of the organization, including the needs and behaviour of its stakeholders. The ability to interpret the outcomes and formulate recommendations regarding the organisation's overall performances including ethics and sustainability. The ability to reflect on the research methodologies used.</i>				

Assessment of professional products

An assessment of the most significant professional products the student has provided to the company during the 3rd year internship period. Please add a brief description of the professional product.

Please provide a score per professional product and motivate the reasoning for the scoring.

1: Unsatisfactory - 2: Sufficient - 3: Good - 4: Outstanding

Professional product	Scores interim appraisal	Motivation	Scores final appraisal	Motivation
Description professional product:				
Description professional product:				
Description professional product:				
Description professional product:				
Further comments:				

Indicator examples

Entrepreneurial behaviour with an innovative and creative capacity

Works hard and wants to achieve; looks for opportunities to achieve successes; is proactive; builds a network within and outside the organisation; takes initiatives, makes proposals; creates and communicates original views, constructive ideas and innovative solutions.

Collaborative capacity

Addresses people correctly following the organisation's culture and collaborates effectively in the team and listens to other people's ideas to achieve the agreed goals; uses project management skills to organise his/ her tasks, achieves the required result and coordinates the process between different disciplines/departments.

Intercultural proficiency

Performs in and is able to contribute to a culturally diverse team; constructs a network and maintains relationships with people from different cultural backgrounds; is aware of cultural differences and is able to adjust the communication style in complex situations, such as conflicts and negotiations; is able to use effective verbal and non-verbal communication in a business setting; is able to adjust the communication style using feedback from co-workers.

Reflective practitioner

Ability to reflect on his/her personal development, motivation and future ambitions, ability to set goals for change, showing personal growth in level and detail in a business setting, takes responsibility for own behaviour and related results; recognizes own mistakes and attempts to correct or prevent them; asks for feedback regularly; puts critical feedback to good use; brings own activities in line with the accepted code of conduct of the professional field.

Investigative capacity

Conducts research with little supervision; applies a business model to get insight in and to analyse the internal and external environment of the organisation; analyses the organisation's sustainable performance and policy and gives innovative recommendations for improvement; gathers and interprets primary and secondary data; a critical reflection on the quality of the research; ability to communicate the findings and recommendations convincingly to the target group.

APPENDIX D: 360-degree feedback form

360-degree feedback form

International School of Business

3rd year Internship – IB & CS

Student name	
Student number	
Name person completing the form	
Job title / department	
Professional relation with student	
Date	
Signature person completing the form	
Signature student for acknowledgement	

Thank you filling in this 360-degree feedback form for our HAN ISB student during his/her internship at your company. The 3rd-year internship is the student's first experience in business and first opportunity to put his/her theoretical knowledge into practice and apply his/her business skills. Your valuable input and feedback on his/her performance will help the student grow and further develop his/her skills and knowledge.

Please rate the student based on your recent experience with him/her and add your motivation. For more detailed indicators for each capacity, see the indicator examples 3rd-year internship. The value of the appraisal process depends on your open, realistic and constructive feedback and feedforward, identifying areas of improvement and giving examples.

<i>Please provide a score per performance area and explain the reasoning for the scoring.</i> 1: Unsatisfactory - 2: Sufficient - 3: Good - 4: Outstanding

APPENDIX F: 3rd-year Internship Assessment Form

INTERNATIONAL SCHOOL OF BUSINESS 3rd-year Internship Professional Performance-based Assessment 2025-2026

Student Name		Date	
Student No.		Supervisor	
Company		Position company coach	
Company coach			
Company coach present	Yes / No	FINAL GRADE (See Brightspace or teams for Osiris code)	

Condition for assessment

	Yes	No
- Completeness of the portfolio report (see checklist manual) - Professional appearance of portfolio report, using advanced business English, a clear structure and an attractive layout - Appraisal form (interim and final appraisal) signed by the company coach - An interim meeting with CC and IS in week 10-12, and the minutes of this meeting		
The portfolio report was uploaded to HandIn.		
Plagiarism percentage: %	Referenced correctly, APA style	

In case the portfolio report does not meet the conditions for assessment, the student can repair this within 3 working days (in case of the absence of an interim meeting/ the minutes of the meeting, repair in consultation with the IA). If it then meets the requirements, the assessment can start. Otherwise, the student will be graded as not having handed in a portfolio report in time which is grade 1).

Determination of final grade

From score to grade	Score	12	13	14	15	16	17	18	19	20	21	22	23	24
	Grade	5.5	5.9	6.3	6.6	7.0	7.4	7.8	8.1	8.5	8.9	9.3	9.6	10
PASS: only if the FINAL score is 12 or higher AND none of the criteria has a score 1														
Feedback (only in case of failing the internship)														
General remarks:														

.....
Signature supervisor

Assessment

Score 1: unsatisfactory	Score 2: sufficient	Score 3: good	Score 4: outstanding
- The student reflects poorly: ➤ his/her actual behaviour is not clearly described and/or ➤ a justification via pieces of evidence is not integrated. - Does not provide all necessary proof in the portfolio report. - Performed below minimal expectations.	- The student reflects adequately on his/her actual behaviour and proves it by integrating pieces of evidence. - Provides all necessary proof in the portfolio report on a basic level. - Performed according to guidelines but not beyond.	- Student reflects adequately and critically on his/her actual behaviour and proves it by integrating pieces of evidence. - Provides substantial proof in the portfolio report. - Performed according to guidelines and showed some extras.	- Student reflects adequately, critically and in-depth on his/her actual behaviour and proves it by integrating pieces of evidence. - Provides extensive proof in the portfolio report. - Performed beyond expectation by going the extra mile, a lot of initiative and own ideas.

Based on the portfolio report, a provisional score is given. During the criterion-based interview (CBI), the assessment criteria are reviewed. This may lead to an adjustment of the provisional score, either increasing or decreasing it.

Resit

- If students do not hand in the portfolio report according to the deadline, a grade 1 will be entered in Osiris
- The condition for the CBI (where the final grade is being defined) is that the provisional score of the portfolio report is at least 11, with a maximum of one criterion of the portfolio report that scores 1. If more criteria score 1, the portfolio report is insufficient and a grade 4 will be entered in Osiris
- If, after the CBI, one or more of the criteria scores 1, the internship is a fail and a grade 4 will be entered in Osiris
- Students may only resit once. A normal resit period is 2 weeks after feedback. However, in consultation with the internship advisor a deviating resit period is possible, based on a tailored individual situation.
- If the resit is insufficient, a retake of the complete internship within another organisation needs to take place.

If the student disagrees with the decision, he/she can appeal within 6 weeks after publication of this decision to the HAN Board of Appeal at examination, preferably by email to bureau.klachtengeschil@han.nl or by regular mail to Bureau Klacht en Geschil, PO Box 6960, 6503 CD Nijmegen. The procedure for appeal is included in the Student Charter, in the attachment "Regulations for Legal Protection of Decisions Concerning Education". The Student Charter can be found on HAN Insite or at www.han.nl.

Professional performance capacities and professional products	Provisional score, based on portfolio report	Motivation for the provisional score based on the portfolio report.	Final score based on input from CBI	Motivation for the final score (only if divergent from provisional score)
<i>Entrepreneurial behaviour with an innovative and creative capacity</i> <i>The ability to recognise and respond to changes in the business environment by developing creative ideas and innovative solutions to improve the organisation's success.</i> Indicator examples: * result driven, takes initiatives, is proactive, takes responsibility for own actions, meets deadlines (for both company and ISB deliverables), shows independence, is motivated and ambitious, works hard, is able to deal with uncertainties, is able to build networks in and outside the organisation, * thinks critically, shows curiosity, has an international business awareness, is able to ethically and systematically gather and correctly interpret data and information, creates and communicates original views, constructive ideas and innovative solutions, seeks cohesion with other business units, recognises and seizes business opportunities				
<i>Collaborative capacity</i> <i>The ability to collaborate effectively with various kinds of stakeholders in diverse cultural and organisational landscapes to realise the agreed goals using a project-based planning and within the determined budget</i> Indicator examples: takes responsibility over his/her role within the team(s) and picks up the required tasks according to the team's expectations, takes responsibility for own actions, works in an ethical and socially responsible manner, understands the different interests of all stakeholders and takes these into account, contributes to interdisciplinary teams, deals with the				

dependency on others, addresses people correctly, expresses himself clearly and voices own opinions; responds with curiosity when people disagree; encourages and motivates others to come up with their own opinions; adheres to existing rules and regulations; listens carefully to other people's ideas. Communicates effectively and in a timely manner with the internship supervisor, meets deadlines, and organizes tasks well.				
<i>Intercultural proficiency</i> <i>The ability to recognise cultural diversity within a professional environment, to use the benefits, reduce the pitfalls of diversity, and communicate effectively in an international setting</i> Indicator examples: *recognises people's cultural background, looks into the cultural complexity of a situation via active listening, checks the accuracy of interpretation and concrete observations, actively looks for the other perspective and explores new approaches. * applies different coping strategies and adjusts the communication style in varying intercultural situations; demonstrates effective use of verbal and non-verbal communication in an intercultural context; constructs a network and maintains relationships in a respectful manner with people from a different personal and/or professional and/or business background; operates effectively within an intercultural team irrespective of the role they undertake; reflects on his behaviour / preferred ways of working and that of others from an intercultural perspective and makes adjustments for what is needed in the team; advocates the benefits of cultural differences and creates a more inclusive cooperation, can mitigate the pitfalls of cultural differences.				
<i>Reflective practitioner</i> <i>The ability to take responsibility for your own personal and professional development, even in an unfamiliar or changing environment.</i>				

Indicator examples: willingness and active attitude to investigate his/her talents and to reflect on his/her motivation and future ambitions. Ability to identify the areas for growth and the appropriate ways to learn (self-knowledge); is eager to learn and actively asks for feedback regularly; puts feedback to good use via concrete learning goals; apply new approaches, evaluate the result and adapt learning goals; takes responsibility for own behaviour and reflects critically from various perspectives on this and the related results; recognizes own mistakes and attempts to correct or prevent them; shows flexibility to adapt to changing situations; is aware of potential stress situations and acts pro-actively; brings own activities in line with the accepted code of conduct of the professional field; gives account of own activities in terms of ethical, social and environmental responsibility.				
<i>Investigative capacity</i> <i>The ability to conduct research into developments of the internal and external environment of the organisation, including the needs and behaviour of its stakeholders. The ability to interpret the outcomes and formulate recommendations regarding the organisation's overall performance, including ethics and sustainability. The ability to reflect on the research methodologies used</i> Indicator examples: conducts research with little supervision; applies a business model to get insight in and to analyse the internal and external environment of the organisation; analyses the organisation's sustainable performance and policy and gives recommendations for improvement; gathers and interprets primary and secondary data; including a critical reflection on the quality of the research (justification: validity, reliability), and has the ability to communicate the findings and recommendations convincingly to the target group, recognises and formulates one's (own) knowledge needs in a situation, makes a link between practice and already acquired theoretical and experiential knowledge, determines which steps and (intermediate) products take you further, consciously formulates and applies criteria for tasks and products, applies functional research activities in a task and for a product, critically reflects on the research approach.				

Company-related tasks, activities and professional products <i>The student provides reliable evidence of their contribution on level 2 in terms of complexity and autonomy by including not only reflections, but also the professional products he/she worked on.</i> Indicator examples: various professional products at an appropriate level, such as research, advisory reports, minutes of the meeting, presentation documents, dashboards, proposals, acquisition of partners, product development, market intelligence, management briefings, organised events. 360d feedback forms and the appraisal by the company coach support the claim the student made in the reflection on the internship performance areas, in the lead of fulfilling own tasks/professional products; making well-argued choices and decisions; able to work independently, but asks for support at appropriate times

APPENDIX H: Quick guide to ISB AI Policy

HOW TO DEAL WITH USE OF AI-TOOLS IN (GRADUATION) INTERNSHIPS A QUICK GUIDE FOR HAN ISB STUDENTS

Questions? Contact your internship advisor

HAN ISB - Business Connections - June 2024

CURRENT SITUATION

Many AI tools, like ChatGPT are a product of a commercial company, and it is unclear what happens with user data and the data entered into the tool. It has not been established that this tool complies with the General Data Protection Regulation (GDPR), making it unsuitable for use within HAN.

About AI tools for which HAN has not acquired a license, such as ChatGPT: ChatGPT is comparable to tools like Facebook, X (formerly Twitter), and Instagram, where you create an account on a personal basis and agree to the terms of use.

Informed, transparent, ethical and responsible use of these tools is necessary, keeping in mind your privacy and the privacy of third parties (such as company data!). Students and teachers cannot be required to create an account. HAN currently only recommends the use of **Microsoft Copilot** in this regard.

ADVICE

The use of AI tools is allowed **only when approved by internship company AND if its use complies with the following rules:**

1. **Informed use:** Know AI tools limits/risks. Verify the generated info.
2. **Transparent use:** You must **receive permission via email** (in writing and enclosed in appendix as evidence) for the use of AI tools such as ChatGPT. If you got permission from the company to use AI in the internship portfolio, you **must account** for the use of the AI tool in referencing list.

For example, in reference list:

Microsoft. (2023). *Microsoft Copilot for Microsoft 365* [Large language model]. <https://copilot.microsoft.com/>

In-text referencing: You should use it as citation or paraphrase. They always should **indicate the prompt** (assignment) given. An example: *"For formulating the objective the chatbot Microsoft Copilot was used (Microsoft, 2023) with the following prompt "..."."*

More info (in Dutch):

[The APA-Team: ChatGPT \(theapateam.blogspot.com\)](https://theapateam.blogspot.com)

3. **Ethical use:** Content submitted is accurate, unbiased and ethical
4. **Responsible use:** Avoid personal, company and/or confidential information in prompts.

GOOD TO KNOW

1. Academic integrity and responsibility for the quality of your work may be affected by use of AI
2. Graduating is done for your personal development, and unauthorized use of tools (in a broad sense) can potentially hinder the ability to graduate.
3. Given the form of assessment, language use or sentence structure is not assessed. There is no need to use AI for this.

In case of suspicion of AI use in which you...:

1. ...did not have written permission from the company AND/OR;
2. ...did not show use of AI in APA reference list / in-text citation ...AND;
3. ...changed the level/content of reflection significantly...

...the supervisor can contact the **Board of Examiners**. The Board of Examiners has the right to investigate in a supplementary interview with the student whether the submitted work is student-own (= authentic).
