INTRODUCTION

This manual is for International Business and Communication Studies students who are about to start their Graduation Internship (GI). It is a guide and a reference for the intern. It provides information about the general objectives and organisation of the Graduation Internship. It includes an overview of the duties and responsibilities of all the parties concerned. It also provides information about the appraisal and assessment process and the necessary documents and assessment forms. In short, it helps students to complete their graduation internship successfully!

This manual and all documents referred to in this manual can be found on Brightspace.

Note: The GI manual is published once a year. For the most recent information always check Brightspace!

GRADUATION INTERNSHIP OVERVIEW

This image shows the overview from start till end of the graduation internship. Details on the planning and deliverables can be found in chapter 4. Details on all (administrative) steps can be found in the Student Journey, see Brightspace.

1 GRADUATION INTERNSHIP WITHIN THE STUDY PROGRAMME

The fourth year, or graduation year, requires completing your study program by meeting the required Programme Learning Outcomes (PLOs) at the Bachelor's level. This year includes G-cluster modules with a professional development and research report (PRODER) and a graduation internship (H-cluster).

During your graduation internship, you will acquire entry-level work experience in a specific industry. You will perform relevant tasks under the supervision of a company coach, which will allow you to learn more about the field, build connections, and develop both strategic and tactical skills. These tasks should result in professional products that show your achievements in 5 key performance areas: Entrepreneurial Behaviour, Innovative Capacity, Intercultural Proficiency, Collaborative Ability, and Reflective Practitioner.

The objectives of the graduation internship are:

1. Demonstrate your ability to work independently on complex tasks, in a complex setting, with high autonomy;
2. Integrate and apply knowledge and skills learned previously during your studies in a professional setting;
3. Develop your talents, knowledge and interests within your specialisation;

1.1 Requirements of the level of the Graduation Internship

You and the company should ensure that tasks and activities meet end-bachelor requirements (level 3 of table 1 below), defined by autonomy, context complexity, and task complexity. Useful indicators include:

- **Complexity of context:** Intensive interaction with diverse stakeholders, considering political sensitivities.
- **Complexity of tasks:** Tasks arise from new or dynamic situations with no standard approach, often involving interdisciplinary projects.
- **Autonomy:** Leading your tasks and professional products, making well-argued decisions, working independently, and seeking support when necessary.

	Competence Level	Complexity		Autonomy
		COMPLEXITY OF THE TASK	COMPLEXITY OF THE CONTEXT	
1	The student is able to perform a simple task with guidance in a limited context.	Simple and structured. Issue is familiar. Standard procedures. Basic knowledge and skills are required.	Defined. Familiar, predictable. Monodisciplinary. Few parties involved. Low level of interaction and communication.	With guidance: instructions, coaching and/or supervision. Acting in accordance with the instructions, not based on own initiative.
2	The student is able to perform a well-defined task independently in a relatively clearly arranged situation, or is able to perform in a complex and unpredictable situation under supervision.	Complex but structured. Issue is partly familiar, partly unknown. Standard procedures must be adjusted. Specialist knowledge and skills are required.	Unknown but transparent. Monodisciplinary. Several parties involved. Average level of interaction and communication.	With intermediate coaching, or coaching on demand. Acting on own initiative (as well). Making (some) choices and decisions. Responding to unexpected circumstances (within limits).
3	The student is able to perform a complex task independently in a complex and unpredictable situation with complete control of the required skills.	Complex and unstructured. Issue is unknown, must be analysed. No standard approach exists, new procedures may need to be developed. Advanced specialist (and sometimes interdisciplinary) knowledge and skills are required.	Unknown, dynamic and non-transparent. Multidisciplinary. Several parties and political sensitivities must be taken into account. High level of interaction and communication.	Little direction and coaching. Acting upon own initiative. Making well-argued choices and decisions. Responding to unexpected circumstances. Reflecting on own tasks and role.

Table 1 Aucom Model (Bultuis, 2011)

1.2 Admission threshold

The student must fulfill all requirements before starting a GI. In special cases, the GI advisor may deviate from this in agreement with the SA.

1. All European Credits (ECs) from the clusters A up to and including F must have been obtained;
2. At least 10 ECs from the G cluster must have been obtained;
3. The Initial Professional Development and Research Plan (PRODER) from the G-cluster must have been approved;

You are responsible for fulfilling the GI entry requirements before starting, and it is important to communicate this clearly to the company. If you have any doubts, please consult your SA.

It is highly recommended that you begin searching for a Graduation Internship position even if you have not yet completed PRODER. If you do not pass PRODER after the resit, you have the option to undertake a new PRODER trajectory after completing your internship. Please note that due to the study load and internship commitments, it is not permitted to enroll in both PRODER and the internship at the same time.

International experience for students who started *before* September 2022

ISB requires that all International Baccalaureate (IB) students gain a minimum amount of international experience during their degree program. Specifically, each student must be exposed to at least two different foreign cultural backgrounds, completing one cluster for each, over the course of their four years in the IB program.

Because of COVID-19 and travel limitations, some cohorts of students have been given a waiver for one cultural experience.

Contact your SA, if you have any questions on the Three culture experience.

International experience for students who started *after* September 2022

Every student has to go a semester abroad at least once during their studies at ISB.

Please check the information Chapter 3.3.in the [Degree Statute](#)

1.3 Duration of the internship

- The internship lasts 21 weeks, requiring you to work 40 hours per week, totaling 840 hours. Successful completion earns 30 ECs.
- The internship must be uninterrupted, excluding only national and summer holidays. You must work at least 18 full weeks before submitting your final portfolio in the 19th week.
- You are required to work five days a week in the office. If hybrid working is permitted, at least three of those days must be spent at the office.

- You are entitled to breaks during the internship, e.g. one day off per month, and Christmas, summer, and national holidays.
- If your graduation internship includes the HAN ISB summer holidays, it should last at least 23 weeks, since you are entitled to have a two-week summer break.
- If it includes the Christmas holiday, it should last at least 22 weeks, with a one-week Christmas break.
- HAN can sign an Internship Agreement for a maximum of 6 months.

2 BEFORE THE GRADUATION INTERNSHIP: ACQUISITION AND APPROVAL

2.1 Preparation and Osiris

You do not need to enroll for the graduation internship exam via Osiris. We do this for you once you have received official approval on your proposal ([see paragraph 2.3](#))

The semester before the start of H-cluster kicks off with a general information session for all future GI students by the GI advisor. This info session gives you a better understanding of what is expected from you during the GI and the GI process.

Before you begin searching for a graduation internship, it is important to identify the best opportunities based on your ambitions, strengths, weaknesses, and market demands. One semester before your internship starts, you can schedule an intake meeting with your Graduation internship advisor.

2.2 Acquisition of the internship

You are responsible for finding a suitable graduation internship. You can acquire an internship via:

- Your own network / family contacts
- HAN JobTeaser website
- Career fair/ Network Cafe
- LinkedIn
- fellow students/alumni
- cold acquisition;
- Via vacancy posts on the GI Teams

Watch the tutorials on LinkedIn and CV available on HAN JobTeaser and Brightspace for helpful tips and tricks for the application process. A CV should never be standard; adjust it to fit the vacancy and the company.

After the first interview, you should have an idea:

- If the tasks enable you to demonstrate the five PAs at the required Bachelor's end level.
- who the company coach of the specific internship is, including their position within the organisation;
- of relevant aspects of the graduation organisation, such as culture, strategy, structure etc;
- of the company's expectations;

After having received a GI offer from the company, fill in the GI proposal form and discuss these points with your future company coach during the next interview/meeting to finalise the proposal.

2.3 Approval to start the Graduation Internship

To start, you must meet the threshold in section 1.2 and have an approved GI Proposal.

The GI advisor assesses the digitally submitted Graduation Internship Proposal Form, completed by you and your company coach. This form and submission procedure are on Brightspace. To obtain quick approval, provide a comprehensive and specific overview of tasks, professional outcomes, and the degree of autonomy and complexity involved. The proposal must demonstrate that the assignment aligns with the degree program and, for IB students, the selected specialisation (Marketing & Sales, Finance, Supply Chain Management, Organization & Change). Generalists should ensure that products are consistent with International Business.

Communication Studies students follow the same track as IB students but are assessed on specific LOCO competencies like Context and Strategy, Target Group & Behaviour, and Concept & Creation.

After approval, you will receive a confirmation email with your start date, end date, portfolio submission date, and assigned supervisor and examiner.

You can only start the graduation internship after receiving this approval + approval by your SA to start with H-cluster. Do not start or sign any agreement before approval.

If you're planning to do your GI this school year (2025-2026) and have not yet been added to a GI Teams channel, please reach out to Internship Administration ISB via email.

2.4 Criteria for the Internship Company

To fulfill the requirements for graduation internships, the company must:

- Provide tasks with significant autonomy and complexity for 21 weeks (840 hours) to showcase competencies in entrepreneurial behaviour, innovative capacity, intercultural proficiency, cooperative capacity, and reflective practice;
- Allow you to work 5 days at the office. For hybrid work, at least 3 days per week at the office;
- Provide a work environment and facilities that are comparable to those available to other employees.;
- Assign a company coach with at least a bachelor's degree AND 3 years of relevant experience, who is not a family member or friend;
- Not be owned or managed by a family member or friend;
- Have at least 20 full-time employees AND at least 5 senior employees at your department (so interns/ trainees are excluded);
- Provide an international perspective by addressing cross-border issues, and/or cultural differences, and/or an international company culture where English is spoken in the workplace.
- Be different from the company* where you did your 3rd-year internship.
(*In large companies (such as Unilever or Procter & Gamble), doing your GI at the same company is allowed,

only when the graduation internship is at a **different location** and **different department**, with **other tasks** and a **new company coach**. Clarify differences in your proposal for approval by the GI advisor.)

2.5 GI Agreement

You are responsible for getting the HAN internship agreement signed by the organisation. Download the appropriate agreement from Brightspace (one version for internships in the Netherlands and another for abroad) and submit the signed agreement to the Internship Administration. HAN ISB only signs the HAN Internship Agreement due to insurance- and protection reasons. Sometimes, three-party contracts from companies are signed, but this might require approval from the legal department, which can take longer. According to Dutch law, higher educational institutions cannot allow two-party contracts.

Send the agreement to internship-administration.isb@han.nl. Once signed, all parties will receive a copy.

Make sure to upload the HAN agreement (or contract GI company) in HandIn together with your portfolio on the submission date.

3 DURING THE GRADUATION INTERNSHIP

During the GI process the following roles can be distinguished:

- Student
- Company coach
- Supervisor (also 1st examiner)
- (2nd) Examiner
- GI advisor (GIA)
- SA
- Internship Administration

Supervisors and examiners can be ISB lecturers, but also external employees officially appointed by the Exam Board.

In the following paragraphs, the responsibilities of the roles are described.

3.1 Student

You need to take the initiative in seeking supervision from your supervisor. Do not hesitate to ask for help and schedule meetings. Organise a meeting with your supervisor before starting the GI to establish clear communication and discuss mutual expectations.

Next to that it is essential to involve the company coach proactively and regularly.

You should take the lead in your graduation process. You need to:

- inform the company about the GI requirements (refer to the company coach leaflet on BrightSpace);
- follow the procedures on Brightspace and in this manual regarding the GI process;
- hand in and upload your documents on time.
- write a Personal Internship Plan from the beginning of your GI. See [3.8.2](#) for more info.
- stick to the submission date (see chapter 4);
- discuss with the company to take a few hours off for the GI return meetings, which are organized twice during each GI period. You will receive an invitation to these meetings.

You have two clients: the company and ISB. You are responsible for meeting the requirements of both parties. Both are your stakeholders.

You are responsible for arranging meetings with the supervisor and company coach and for asking feedback. During the internship submit the required documents to the supervisor. Strictly adhere to the dates of submission (see planning [chapter 4.2](#) for more info) you set with your supervisor. The final submission date, as communicated in the confirmation email and on the excel sheet in Microsoft Teams is strict and non-negotiable. You can always contact your supervisor; however, avoid overwhelming him/her with minor questions, as you should demonstrate autonomy and independence as well.

You are responsible for arranging the CBI meeting with your supervisor/ examiner and company coach in time.

3.1.1 Appraisal and 360-degree feedback forms

During your graduation internship it is compulsory to collect:

- Two rounds of at least **four 360-degree feedback forms** completely filled out and signed by 4 senior colleagues (no interns/ trainees/ fellow students) preferably second round by same people as the first round of feedback. The first round after 9-10 weeks, the second round after week 14-17.
- **Two appraisal forms** signed by the company coach, one after 9-10 weeks, one after week 14-17.

See chapter 4.3 for the planning on when to collect these forms.

These forms should include scorings AND a detailed justification of these scorings. HAN representatives (i.e. supervisor, examiner or a graduation internship advisor) are allowed to contact the people who filled out these forms, in case more information is required.

Company Coach

The company coach plays a crucial role in the success of your graduation internship. It is your responsibility to keep the company coach informed about the requirements and procedures of the internship.

The company coach's tasks are to:

- arrange the student's introduction and coaching in the organisation.
- ensure that the student becomes familiar with the corporate culture and structure.
- arrange satisfactory facilities for the students.
- discuss the progress of the internship with the student (and supervisor).
- check the documents the student sends to the supervisor for factual correctness.
- contact the supervisor immediately if any relevant issues arise or if the cooperation with the student is unsatisfactory.
- provide a signed appraisal form twice (interim- and final appraisal) of the student's performance to the supervisor during the internship.
- attend the final interview, the CBI

3.2 Supervisor

The supervisor will initially visit you at the company location (in the Netherlands) followed by an online meeting for the second visit. During these visits, the supervisor will discuss your progress:

- (the level of your) tasks and if these tasks are within the chosen specialisation or study stream (IB/CS).
- your deliverables.
- your learning objectives.
- the evidence for the performance areas (PAs).

The supervisor has two separate roles: coach and first examiner.

As coach:

Every graduation process is different, and every student is different. The amount of supervision will be tailored to this (situational coaching).

The supervisor will:

- monitor and adjust, if necessary, the level of activities according to the requirements.
- monitor and coach you on your performance and development.
- give feedback on the (concept) portfolios.
- visit you twice (as far as physical distance & time restrictions allow) or as often as necessary in urgent matters. The purpose of this visit is, among other things, to discuss progress. If a physical visit is not possible, online sessions will be conducted with the company coach and student..
- not be allowed to adapt the standard GI procedure and the final submission date as communicated in the confirmation email.

As first examiner

The supervisor will

- assess the GI, based on the final portfolio and Criterion Based Interview (CBI), and determine the final grade together with the (2nd) examiner. The assessment criteria are stated in chapter 3.8.3 and in appendix 2.
- upload the assessment form on HandIn.

3.3 Examiner

The (second) examiner is not involved during the GI process but is entitled to offer advice about the draft portfolio to the supervisor.

The examiner:

- might read the concept version of the final portfolio in special circumstances.
- assesses the final portfolio and determines the provisional grade with the 1st examiner.
- assesses the GI based on the portfolio and CBI together with the 1st examiner and determines the final grade.

The first and second examiner have an equal voice in the final assessment of the student.

3.4 GI Advisor

The GI advisor's tasks include:

- informing you about the procedures, deadlines and requirements.
- approving graduation internship proposals.
- assigning a supervisor and an examiner
- monitoring the quality of the organisation of the GI process, coaching and assessment.

ISB is committed to providing a safe environment for all students, both on campus and during the internship. If you encounter any safety issues, discrimination or any other form of undesired behaviour during your internship, inform your internship advisor. Your concerns will be treated seriously and handled confidentially.

3.5 Study Advisor (SA)

In case you encounter difficult personal circumstances, do not hesitate to contact the SA and GI advisor as soon as possible. Timely communication of issues is essential for effective support.

3.6 ISB Internship administration

The ISB Internship administration is responsible for:

1. signing all internship documents:
 - HAN Internship Agreement
 - Registration Form Abroad
 - Non-Disclosure Agreement
 - Proof of enrollment.
2. archiving documents (like agreements and assessment forms) and portfolio.
3. organizing the graduation ceremony.
4. communication with students, supervisors and examiners (invitations, signed documents etc).

You are responsible for sending all the important documents to Internship Administration in time.

3.7 GI portfolio and assessment

3.7.1 Portfolio

Your GI is an ongoing process, and your portfolio will grow during your GI. There are several hand-in (feedback) moments to keep you on track and monitor the level of your tasks and professional products. You will start with a first interim portfolio, followed by a second interim portfolio, a concept final portfolio, and end with the final portfolio.

In the final portfolio, you reflect on your performance as a starting professional, covering company-related tasks, activities, professional products, and the five Performance Areas (PAs) described in chapter 4.8.3. This documentation should demonstrate that you have met the assessment criteria and achieved the required exit level.

The final portfolio should include various subjects and types of evidence depending on the GI company, chosen specialisation, and your tasks and activities. All points listed in Appendix 1 must be included.

You are not allowed to use AI without notification. Guidelines on using AI can be found in Appendix 6.

3.7.2 Personal Internship Plan (PIP)

One of the main goals of your graduation internship is to further develop your personal and professional skills at the Bachelor's level in an international environment, while also working on tasks and professional products to achieve the five PAs. The internship is an excellent opportunity to learn from experienced colleagues and identify the skills needed for business success. To maximise this learning experience, set clear goals in the first week of your internship. This reflection period helps you take charge of your learning process and track your progress.

During your studies, you have reflected on your strengths, weaknesses, goals, and ambitions. Use your F- and G-cluster as the basis for your H-cluster goals. In a 2-page initial report, translate your goals into specific goals for your internship company and tasks. Identify which skills you want to develop and observe the skills required by your new colleagues to perform well. Show your progress from the F- to G- to H-cluster and your learning goals post-graduation. Evaluate what you learned in previous clusters, how you worked on these goals, and if they still apply. Do not copy-paste previous reflection reports; instead, evaluate them. Define one goal (personal or professional) per PA for your internship, ensuring they align with the SMART criteria. Create an action plan with clear steps to achieve these goals and include this PIP in the appendix of your portfolio. The final evaluation of your progress in meeting your PIP learning goals should be included in the portfolio section, where you reflect on the final PA: Reflective Practitioner.

3.7.3 Assessment criteria

Given the varied nature of tasks and professional products in each GI trajectory, a holistic approach is used for the final assessment. According to Optimus Education (n.d.), holistic assessment involves *"assessing the bigger picture, in which a combination of evidence from a range of tools and perspectives supports developing an accurate picture of your prior and current abilities."* Students are assessed on satisfactory performance in five main areas, called Performance Areas (PAs). Additionally, the level and added value of company-related tasks, activities, and professional products are evaluated. The assessment criteria include:

- PA 1 - Entrepreneurial behaviour: The student shows *pro-active behaviour* and an *investigative attitude* to be able to anticipate changes in the internal and external environment;
- PA 2 - Innovative capacity: The student shows a *problem-solving attitude* by improving existing, or creating new, procedures / working methods and/or products /services, supported by *analytical behaviour*;
- PA 3 - Collaborative capacity: The student *collaborates effectively* together with people, inside and outside the own team, from different backgrounds and with different interests, to achieve the required result.
- PA 4 - Intercultural proficiency: The student *recognizes cultural differences* and shows *effective and appropriate behaviour and communication* in interculturally challenging situations;
- PA 5 - Reflective practitioner: The student *takes responsibility* for their own professional behavior and development.

- Company related tasks, activities and professional products: The student provides reliable evidence of their contributing to the organisation on the Bachelor exit level 3 in terms of complexity and autonomy by including not only reflections, but also the professional products he/she worked on.

Examples of indicators per assessment criteria are shown in the assessment form:

Entrepreneurial behaviour
*The student shows **pro-active behaviour**, and an **investigative attitude**: to be able to anticipate changes in the internal and external environment.*

Indicator examples:
1 result driven, takes initiatives, takes risks, dares to take decisions, is not afraid to express bold opinions, takes responsibility for own actions, shows independency, is motivated and ambitious, is able to deal with uncertainties, shows maneuverability, is able to build networks in and outside the organisation,
2 thinks critically, shows curiosity, has an international business awareness, is able to ethically gather and correctly interpret data and information, seeks cohesion with other business units, recognizes and seizes business opportunities.

→ ALL numbered terms in the assessment criteria (in bold) have to be visibly accounted for in the portfolio. Thus, you must meet all assessment criteria!

→ You can do so by adding to indicators which are listed under the particular term. Not all indicator examples have to be integrated in the portfolio. The indicators are not meant as a checklist! You have to link indicators to examples in your own words, evidences that you gathered or professional products you worked on.

3.7.4 Survey

In the third month of the internship, the internship administration will distribute a survey to all interns. This survey will cover aspects such as the industry of the company, the internship company itself, its sustainability policies, and the tasks assigned. This valuable feedback provides ISB with insights into the internship experience and the future work environments of our students. It helps us align our education with labor market demands and better prepare our students for their careers.

All students are required **to complete and return this survey**. Doing so not only contributes to improving our understanding of your internship experience but also helps in developing your reflective competency.

3.7.5 Hand in procedure

On the submission date, you must email the final portfolio to the supervisor and examiner via email or SURF Filesender. HAN University does not have a contract or processing agreement with WeTransfer, which means that using it for transfers leads to an official data breach! So do not use this program!

For archiving purposes and a plagiarism check, you additionally need to upload the portfolio including all appendices and HAN agreement (or contract GI company) on HandIn:

- The max. format of an upload in Handin is 100 MB. You cannot exceed this.
- You must use Word or PDF format. A zip file is not allowed.
- The HandIn code must match the code registered in Osiris.

Instructions for uploading on HANDIN can be found on Brightspace.

HandIn/Osiris codes

Study	Specialisation	Code GI Abroad	Code GI not Abroad (in the Netherlands)
Communication Studies	n.a.	GICOMA01	GICOMN01
International Business	Finance	GIFINA01	GIFINN01
	Marketing & Sales	GIMASA01	GIMASN01
	Supply Chain Management	GISCMA01	GISCMN01
	Organisation & Change	GIORCA01	GIORCN01
	Generic	GIINBA01	GIINBN01

Note: in case you are having trouble with HANDIN, please inform internship-administration.isb@han.nl. Do not take your own decisions. For example, if you cannot tag your supervisor in your upload, do not tag anyone else, nor one of the GI advisors!

3.7.6 Non-disclosure Agreement

If a non-disclosure agreement is required by the company, HAN has a standard form available on Brightspace. HAN does not require its own non-disclosure document, as confidentiality issues are already addressed in the HAN GI agreement.

3.7.7 Criterion Based Interview

Conditional for the CBI (where the final grade is being defined) is that the provisional score of the final portfolio is at least 11 with a maximum of one criterion of the portfolio that scores 1 (insufficient). If more criteria score 1, the whole portfolio is insufficient and a grade 4 will be entered in Osiris, which means the CBI will not take place. Instead, a feedback session between student, supervisor and examiner will be held. If one of the scores remains a 1 after the CBI, you will fail your graduation internship.

For more info about the resit, see chapter [4.8.10](#). You pass your GI when the FINAL score is 12 or higher AND none of the criteria has a score 1.

The CBI preferably takes place at HAN International School of Business in Arnhem or via Microsoft Teams if abroad, and lasts about 60 minutes:

- 5 min. introduction.
- 10 min. pitch (focus on PAs, professional products, your added value, new info).

- 35 min. interview by supervisor/examiner (includes up to 5 min. for comments from the company coach). Present new information and examples if possible.
- 5-10 min. student temporarily leaves the meeting while the supervisor, examiner, and company coach discuss and define the final grade.
- 5 min. student is invited back, and the final grade with motivation is shared.

You are responsible for scheduling a suitable time and date with the supervisor, examiner, and company coach well in advance.

The company coach is expected to attend the final interview and should be invited by you. The examiners may ask questions to the coach to facilitate the Q&A session, but the coach should not answer questions meant for you.

Occasionally, members of the Board of Examiners, the Professional Advisory Committee, and/or external observers may join the interview. They will only observe to provide advice on process improvements and will not interfere or influence the grade.

3.7.8 Final assessment

Before the CBI, the supervisor and examiner give a preliminary score based on the final portfolio. The CBI is used to determine the final grade. Although the final interview is not graded separately, it may lead to adjustments in earlier scores and the overall final grade. You'll receive your final grade and a brief explanation shortly after the interview. The examiner submits the final assessment form and sends you a copy.

3.7.9 Repair

If you do not meet the assessment conditions (see the assessment form), you have the opportunity to resubmit within three days. This does not count as a first chance and you will not receive a grade.

3.7.10 Resit

There are various possibilities to qualify for a resit:

- If you do not hand in the portfolio on the submission date, your first chance is a fail and a grade 1 will be entered in Osiris.
- The condition for the CBI (where the final grade is being defined) is that the provisional sum of scores of the portfolio is at least 11 with a maximum of one criterion of the portfolio that scores 1. If more criteria score 1, the portfolio is insufficient, and a grade 4 will be entered in Osiris.
- If, after the CBI, one or more of the criteria scores 1, the graduation internship (GI) is a fail, and a grade 4 will be entered in Osiris.
- Students may only resit once. A normal resit period is 2 weeks after feedback. However, in consultation with the supervisor/examiner, a deviating resit period is possible, based on a tailored individual situation.

In case of a resit, the month of graduation might shift. The planned CBI will then be converted into a feedback conversation. After the moment of feedback, you have 2 weeks to rewrite your portfolio.

3.7.11 Retake

- If the resit fails, a retake of the complete GI within another organisation needs to take place.

4 TIMELINE

4.1 Starting dates and deadlines

The time schedule below gives an overview of the possible starting dates, deadlines of the final portfolio, the week of the CBI and the month of graduation linked to the start date of the student. The submission date is **not** negotiable. You **cannot** hand in your final portfolio before or after the submission date! In case of personal mitigating circumstances please inform the GI Advisor and/or SA in time.

PLANNING SEM 1 25-26 GRADUATION INTERNSHIP (TENTATIVE)

Regular timeline: Startdate + 21 weeks + 1 week Christmas break					
Starting between:		Submission date portfolio	CBI between		Graduation month
18-Aug-2025	AND 24-Aug-2025	4-Jan-2026	12-Jan-2026	AND 25-Jan-2026	January
25-Aug-2025	AND 31-Aug-2025	4-Jan-2026	12-Jan-2026	AND 25-Jan-2026	January
1-Sep-2025	AND 7-Sep-2025	11-Jan-2026	19-Jan-2026	AND 25-Jan-2026	January
8-Sep-2025	AND 14-Sep-2025	18-Jan-2026	25-Jan-2026	AND 13-Feb-2026	February
15-Sep-2025	AND 21-Sep-2025	25-Jan-2026	2-Feb-2026	AND 13-Feb-2026	February
22-Sep-2025	AND 28-Sep-2025	1-Feb-2026	9-Feb-2026	AND 13-Feb-2026	February
29-Sep-2025	AND 5-Oct-2025	8-Feb-2026	16-Feb-2026	AND 24-Mar-2026	March
GRADUATION CEREMONY 19 March '26					
6-Oct-2025	AND 12-Oct-2025	15-Feb-2026	23-Feb-2026	AND 24-Mar-2026	March
13-Oct-2025	AND 19-Oct-2025	22-Feb-2026	2-Mar-2026	AND 24-Mar-2026	March
20-Oct-2025	AND 26-Oct-2025	1-Mar-2026	9-Mar-2026	AND 24-Mar-2026	March
27-Oct-2025	AND 2-Nov-2025	8-Mar-2026	16-Mar-2026	AND 24-Mar-2026	March
3-Nov-2025	AND 9-Nov-2025	15-Mar-2026	23-Mar-2026	AND 16-Apr-2026	April
10-Nov-2025	AND 16-Nov-2025	22-Mar-2026	30-Mar-2026	AND 16-Apr-2026	April
17-Nov-2025	AND 23-Nov-2025	29-Mar-2026	6-Apr-2026	AND 16-Apr-2026	April
24-Nov-2025	AND 30-Nov-2025	5-Apr-2026	13-Apr-2026	AND 16-Apr-2026	April
1-Dec-2025	AND 7-Dec-2025	12-Apr-2026	20-Apr-2026	AND 21-May-2026	May
8-Dec-2025	AND 14-Dec-2025	19-Apr-2026	4-May-2026	AND 21-May-2026	May
15-Dec-2025	AND 21-Dec-2025	26-Apr-2026	11-May-2026	AND 21-May-2026	May
22-Dec-2025	AND 28-Dec-2025	3-May-2026	11-May-2026	AND 21-May-2026	May
GRADUATION CEREMONY 9 July '26					

Holidays:

Lecturers	11-10-2025 until 19-10-2025	Autumn break
	20-12-2025 until 4-1-2026	Christmas break
	14-2-2026 until 22-2-2026	Spring break
	25-4-2026 until 3-5-2026	May break
	11-7-2026 until 16-8-2026	Summer break
GI students	24-12-2025 until 1-1-2026	Christmas break

Timeline when 6-months GI contract					
Starting between:		Submission date portfolio	CBI between		Graduation month if six-months contract
18-Aug-2025	AND 24-Aug-2025	4-Jan-2026	26-Jan-2026	AND 13-Feb-2026	Febr.
25-Aug-2025	AND 31-Aug-2025	4-Jan-2026	26-Jan-2026	AND 13-Feb-2026	Febr.
1-Sep-2025	AND 7-Sep-2025	11-Jan-2026	26-Jan-2026	AND 13-Feb-2026	Febr.

22-Dec-2025	AND 28-Dec-2025	3-May-2026	25-May-2026	AND 23-Jun-2026	June
GRADUATION CEREMONY 9 July '26					

Holidays:

Lecturers	11-10-2025 until 19-10-2025	Autumn break
	20-12-2025 until 4-1-2026	Christmas break
	14-2-2026 until 22-2-2026	Spring break
	25-4-2026 until 3-5-2026	May break
	11-7-2026 until 16-8-2026	Summer break
GI students	24-12-2025 until 1-1-2026	Christmas break

IMPORTANT!

The graduation internship period ends at the point when students have obtained their diploma, that is when the exam board sends out a letter/email confirming your graduation. Internships cannot continue after graduation based on an internship agreement. If a student wishes to continue working for the internship company after this point, it will only be permitted under a different agreement (for example, an employment contract).

The HAN is explicitly not involved in this matter.

This also means, in case of a six months graduation contract, you are legally not allowed to graduate earlier than the sixth month even if you hand in your portfolio earlier. This could mean paying extra tuition fee. Please keep this in mind.

4.2 Planning and GI deliverables

The schedule below shows an overview of the GI planning. The schedule is generally applicable, independent of the starting date of the internship. Students should make up a personalized schedule, including exact dates at the beginning of their internship and discuss it with their supervisor during first the company visit. This schedule is based on graduation according to normal circumstances, sometimes it might shift a week or so due to startdate, graduation date, and personal circumstances.

When	Date	What	Remarks
Wk 0		Meet with your supervisor	Mail your supervisor and plan a date before the start of GI to meet and greet. Agree with supervisor on submission date <u>Personal Internship Plan (PIP)</u>
Start- Wk 1	See start date in confirmation mail GI advisor	Get introduced to the company and the tasks	Prepare a <u>Personal Internship Plan (PIP)</u> (for the company visit in week 2/3). See chapter <u>3.7.2.</u>
Wk 2-3		First company visit by supervisor, or via Microsoft Teams if a physical visit is hardly doable. You must hand in <u>meeting report</u> based on meeting Wk 2/3 within three working days.	Joint meeting between student, company coach and supervisor to discuss the PIP, the (level of) tasks, responsibilities, deliverables, supervision AND how you will prove your PAs in the end. Discuss permission use of AI and ask for confirmation per mail.
Wk 9/10		Hand in <u>first interim portfolio</u> . Agree on exact deadline with the supervisor.	Including: • Description of the organisation. • Description of the tasks (to be) undertaken and professional products (to be) delivered. • Reflection on the assessment dimensions: complexity and autonomy • Signed 360° feedback forms (4 at least) • Signed appraisal form by the company coach. • Reflection on the results from 360 feedback forms and the appraisal form. Include adapted learning goals if necessary, along with an action plan to achieve those goals..
Wk 10/11		Second company visit by supervisor. This visit can also be done via Microsoft Teams. Hand in <u>meeting report</u> based on meeting Wk 10/11 within three working days to supervisor. Fill out the survey that will be sent to you in week 10/11; it helps provide input for your role as a 'reflective practitioner'!	The supervisor will give feedback on the interim portfolio and discuss feedforward. Check on required level of GI and if the requirements for a specialisation mark on diploma can be met in case of IB students.
Wk 13/14		Hand in the <u>second interim portfolio</u> Agree on the exact deadline with supervisor. In the weeks following, the supervisor will provide feedback on the second interim portfolio and discuss feedforward.	Including: • Description of the organisation. • Description of the tasks (to be) undertaken and professional products (to be) delivered. • Reflection on the assessment dimensions: complexity and autonomy • reflection on the PAs and graduation internship until then, areas of attention. Collect in the weeks after second interim portfolio input for your draft portfolio: • 2nd round of signed 360° feedback forms (4 at least)

			2nd round of signed appraisal form by the company coach.
Wk 17		Hand in complete <u>concept final portfolio to supervisor and in some cases to examiner if applicable.</u> Agree on exact deadline with supervisor.	Make sure to include all items listed in Appendix 1 - Portfolio Requirements
Wk 19		Hand in <u>final portfolio. See chapter 3.8.9 for consequences of not meeting deadlines!</u>	- Complete your portfolio - Adjust and add to concept portfolio according to feedback
Wk 21		Criterion Based Interview (CBI) ¹ OR official feedback moment ² in case of resit CBI must be held at the HAN (in person) Or online via Teams: - When student is abroad for GI; - When company coach cannot be present on location (hybrid also possible); - Unforeseen circumstances such as renovations, lock-downs etc. If HAN supervisor and examiner are both available, CBI at GI company is also allowed.	¹ The examiners will interview the student about their pitch and the proof handed in (portfolio) and assess if the student is professionally competent on bachelor level, based on the criteria given. ² The examiner and supervisor will provide the student with feedback on the final portfolio in order to make improvements during the resit period.
Wk 23	In case of RESIT	Hand-in <u>resit final portfolio</u>	
Wk 25	In case of RESIT	Criterion Based Interview (CBI)	

5 AFTER GRADUATION INTERNSHIP: DISENROLLMENT

In OSIRIS, students must indicate that they are ready to receive their degree certificate. See the updated schedule in the manual with the important dates. The final dates for requesting degree certificates by students have been added as well.

The student can request the degree certificate as soon as he/she obtained at least 150 EC's in the main phase. [Requesting the graduation](#) via OSIRIS does not mean the student disenrolls from HAN! This is only a request to receive the diploma. A student has passed the final assessment once the Board of Examiners decides they have passed (and not when the student obtains their final grade). All actions undertaken by HAN from the moment the last grade is awarded up to and including the archiving of the certificate are part of the education. Therefore, the student has to be enrolled in the degree programme.

The board of examiners determines whether a student has passed their final assessment and completed the degree program. This decision is based on the candidate graduate's results as outlined in the Education and Examination Regulations (EER). The Study Progress Administration provides the list of candidates eligible for graduation. These "graduation decisions" are made on specific dates throughout the academic year, which are indicated on the degree certificates and diploma supplements. Following this, HAN Services prints the certificates, which are signed by the board of examiners and issued to the graduates.

NB. You need to disenroll on the day you receive an email on behalf of the exam board that you have graduated. If you postpone this until next month, you will have to pay an additional month's tuition fee. Please consult the Graduation Protocol on HAN Insite!

All (graduation) grades have to be fully processed by teachers into Osiris last on dates below.	Study Progress Administration delivers names of candidate graduates to the board of examiners on the dates below.	Board of examiners checks and decides on the candidate graduate's data incl. processing in OSIRIS.	Board of examiners decides student has passed the final assessment = date on certificate and diploma supplement. NOTE: graduation ceremonies must be scheduled in consultation with Study Progress Administration.
24 September 2025	25 September 2025 13:00	25 to 30 September 2025	30 September 2025 11:00
24 October 2025	27 October 2025 13:00	27 to 30 October 2025	30 October 2025 11:00
21 November 2025	24 November 2025 13:00	24 to 27 November 2025	27 November 2025 11:00
12 December 2025	15 December 2025 13:00	15 to 18 December 2025	18 December 2025 11:00
23 January 2026	26 January 2026 13:00	26 to 29 January 2026	29 January 2026 11:00
20 February 2026	23 February 2026 13:00	23 to 26 February 2026	26 February 2026 11:00
25 March 2026	26 March 2026 13:00	26 to 31 March 2026	31 March 2026 11:00
17 April 2026	20 April 2026 13:00	20 to 23 April 2026	23 April 2026 11:00
22 May 2026	26 May 2026 13:00	26 to 28 May 2026	28 May 2026 11:00
24 June 2026	25 June 2026 13:00	25 to 30 June 2026	30 June 2026 11:00
25 August 2026	26 August 2026 13:00	26 to 31 August 2026	31 August 2026 11:00

Table 4: Graduation protocol 2025-2026

1 Article 7.12, paragraph 2 of the Higher Education and Research Act

2 The board of examiners can, in exceptional cases, deviate from these dates

NB. Keep in mind that after graduation the Internship Agreement ends automatically. The HAN cannot be involved in an extension of the internship after graduation. Student and company are free to arrange an extension of the internship between themselves but not in the form of an internship, but a separate working agreement set up by student and company.

6 INSURANCE, REGISTRATION GOING ABROAD AND SCHOLARSHIPS

Before travelling, it's mandatory for students to register. Your registration must be submitted in full before the start of your internship abroad. It is important for HAN to know when and where students are abroad in case of calamities such as tsunamis, earthquakes and political unrest. For registering and more information about an internship or graduation abroad, look [here](#).

6.1 Liability insurance abroad

More information: check [this page](#) to see which insurances you may want to take out when travelling abroad for your studies or internship.

APPENDIX 1 – PORTFOLIO REQUIREMENTS

Creating a Graduation Internship Portfolio

What is a portfolio?

- A **visual** representation of your abilities, skills, capabilities, knowledge, qualities and a representation of your potential.
- You can use any format or layout for your portfolio, such as Word, PDF, a website, infographic, video vlogs, or blogs. Ensure that if you choose a format other than Word or PDF, it is both downloadable and archivable. For example, if you've created a website, take screenshots and upload them to HANDIN for archival purposes..
- A tangible collection of your achievements, contributions and efforts representing the whole period of the Graduation Internship.
- Written in correct Business English, referenced according to APA rules where necessary
- Properly structured and in-text linking to correct appendices.

What should be in the portfolio?

First of all, students must meet the criteria for portfolio completeness as outlined in the assessment form. The items included may vary depending on the GI company and the activities you have undertaken. Present yourself and your work in a clear and concise manner. Keep in mind that more content does not necessarily mean better quality; it's important to be concise!

However, the following elements must be included in your portfolio in some form. You have the freedom to determine the overall structure.

- Table of contents / a clear overview of all contents (such as menu etc.)
- Resumé of student (CV)
- Description of the organisation/department/stakeholders
 - Description (and visual) of the organization, departments, stakeholders, including the main business activities, main markets/customers/partners, financial situation and developments in the business.
 - Description of your department, roles and activities within your department and your role within the department;
- Description of the tasks and activities
 - Short overview of all tasks and activities you have worked on. Include:
 - ✓ information on what you did;
 - ✓ with whom you worked;
 - ✓ the time spent on each task;
 - ✓ short reflection on complexity and autonomy per task;
 - ✓ per task, briefly the outcomes linked with the final professional products.
 - Zoom in on one of 3-5 of the most complex tasks → go into detail;
You need to provide information per task on:
 - ✓ why you received the task. Provide a clear problem definition and reasoning.. How relevant/urgent was this for the company?;
 - ✓ what activities and stakeholders were involved?;
 - ✓ **your** actual contribution. What was **your** role/what did **you** do? Which theoretical knowledge and/or tools did you apply?;
 - ✓ what was the result? Provide a link to the relevant professional products in the appendices.
 - ✓ brief reflection on the process of tasks and outcomes.
 - Use the STARR method for reflection on this part.

- Evaluation on Performance Areas
 - Motivate why you think that you master each PA. Give specific examples of your performance using the indicators given in the assessment form.
 - Cross reference all necessary evidence (VERY IMPORTANT):
 - ✓ pieces of evidence can take different forms: 360d feedback forms, appraisal form, professional products (for example a new website, process description, advisory report), and other types of evidence gathered during the execution of the tasks (for example emails or minutes of meetings)).
 - ✓ there are no restrictions on the type of evidence (these can be digital files in all types of formats, such as PDF's, PPT, Word, Excel, video's, voice recordings, etc.)
 - ✓ You can add these video's/voice recordings as a separate file.
 - ✓ **Provide links** to all evidence in the appendices. This improves the reading experience for the supervisor and examiner.
- Additional instructions for the chapter on PA Reflective Practitioner
 - ✓ include the analysis of – and the reflection on both rounds of 360degree feedback forms and appraisal forms. Show how you have worked on the feedback;
 - ✓ reflection on the (adapted) learning goals;
 - ✓ reflection on PIP (professional and personal development from F- to G- to H-cluster and onwards).
- Appendices should at least contain:
 - PIP document created the first week of GI
 - 2x4 360d feedback forms (2x 4 people at least, preferably second round by same people as the first round of feedback);
 - First and second appraisal form signed by the company coach;
 - Professional products;
 - Other evidences.

How to hand it in:

- Upload documents via HANDIn and always send them via mail to your supervisor and examiner
- Document too large to send or upload in HandIn? Use SURF Filesender. If you use SURF Filesender, the supervisor/examiner should inform the Internship Administration so that they can archive the attachments properly somewhere else.
HAN University does not have a contract or processing agreement with WeTransfer, which means that using it for transfers leads to an official data breach! So do not use this program!

APPENDIX 2 – GI ASSESSMENT FORM

**INTERNATIONAL SCHOOL OF BUSINESS
IB/CS - Graduation Internship**

Performance based assessment 2025-2026

Graduate Name		Date	
Student No.		Place / Room	
Supervisor		Examiner	
Company coach		Position company coach	
Company name			
Company coach attended CBI		FINAL GRADE (see manual for Osiris code)	
External observer			

Conditional for assessment

	Yes	No
Completeness of the portfolio:		
- Introduction to the organisation, the context, tasks and activities		
- Reflection on all the PAs		
- Reflection on the tasks, activities and professional products		
- Evidence for the reflections via company-related professional products		
- At least four 360° feedback forms (signed and completely filled in)		
- Appraisal forms of the company coach (signed and completely filled in)		
The portfolio was uploaded in Handin.		
Plagiarism percentage: %		
Referenced correctly, APA style		

In case the portfolio does not meet the conditions for assessment, the student can repair this within 3 working days. If it then meets the requirements, assessment can start. Otherwise, the student will be graded as having not handed in a portfolio in time (which is grade 1).

Determination of final grade

From score to grade	Score	12	13	14	15	16	17	18	19	20	21	22	23	24
	Grade	5.5	5.9	6.3	6.6	7.0	7.4	7.8	8.1	8.5	8.9	9.3	9.6	10
PASS: only if the FINAL score is 12 or higher AND none of the criteria has a score 1														
Feedback (only in case of a fail):														
General remarks:														

.....

Signature supervisor

.....

Signature examiner

Assessment

Score 1: unsatisfactory	Score 2: sufficient	Score 3: good	Score 4: outstanding
- The student reflects poorly: ➤ his/her actual behavior is not clearly described and/or ➤ a justification via pieces of evidence is not integrated. - Does not provide all necessary proof in the portfolio. - Performed below minimal expectations.	- The student reflects adequately on his/her actual behavior and proves it by integrating pieces of evidence. - Provides all necessary proof in portfolio on a basic level. - Performed according to guidelines but not beyond.	- Student reflects adequately and critically on his/her actual behavior and proves it by integrating pieces of evidence. - Provides substantial proof in portfolio. - Performed according to guidelines and showed some extras.	- Student reflects adequately, critically and in-depth on his/her actual behavior and proves it by integrating pieces of evidence. - Provides extensive proof in portfolio. - Performed beyond expectation by going the extra mile, a lot of initiative and own ideas.

Based on the portfolio a provisional score is given. During the criterion-based interview (CBI), some or all assessment criteria are discussed. This can result in an adjustment of the provisional score, either upward or downward.

Resit and Retake

- If students do not hand in the portfolio according to the deadline, a grade 1 will be entered in Osiris
- Conditional for the CBI (where the final grade is being defined) is that the provisional score of the portfolio is at least 11 with a maximum of one criteria of the portfolio that scores 1. If more criteria score 1, the portfolio is insufficient and a grade 4 will be entered in Osiris
- If, after the CBI, one or more of the criteria scores 1, the graduation internship (GI) is a fail and a grade 4 will be entered in Osiris.
- Students may only resit once. A normal resit period is 2 weeks after feedback. However, in consultation with the supervisor/examiner a deviating resit period is possible, based on a tailored individual situation.
- If the resit fails, a retake of the complete GI within another organisation needs to take place.

If the student disagrees with the decision, he/she can appeal within 6 weeks after publication of this decision to the HAN Board of Appeal at examination, preferably by email to bureau.klachtengeschied@han.nl or by regular mail to Bureau Klacht en Geschied, PO Box 6960, 6503 CD Nijmegen. The procedure for appeal is included in the Student Charter, in the attachment "Regulations for Legal Protection of Decisions Concerning Education". The Student Charter can be found on HAN Insite or at www.han.nl.

Performance areas (PA's) and professional products	Provisional score, based on portfolio	Motivation for the provisional score based on the portfolio.	Final score based on input from CBI	Motivation for the final score (only if divergent from provisional score)
Entrepreneurial behaviour <i>The student shows pro-active behaviour₁ and an investigative attitude₂ to be able to anticipate changes in the internal and external environment.</i> Indicator examples: ₁ result driven, takes initiatives, takes risks, dares to take decisions, is not afraid to express bold opinions, takes responsibility for own actions, shows independency, is motivated and ambitious, is able to deal with uncertainties, shows maneuverability, is able to build networks in and outside the organisation, ₂ thinks critically, shows curiosity, has an international business awareness, is able to ethically gather and correctly interpret data and information, seeks cohesion with other business units, recognizes and seizes business opportunities.				
Innovative capacity <i>The student shows a problem-solving attitude ₁ by improving existing, or creating new, procedures / working methods and/or products /services, supported by analytical behaviour₂.</i> Indicator examples: ₁ dares to question the existing situation, looks beyond obvious solutions and looks for better alternatives, is flexible in thinking and expresses many ideas and uncommon views, creates innovative ideas (from a sustainable perspective), can come up with practical and relevant future proof solutions, can gain commitment for the innovations within the organisation. ₂. Identifies and defines problems, extracts key information from data and develops workable solutions for the problems identified in order to test and verify the cause of the problem and develop solutions to resolve the problems identified, interprets gathered data and metrics, wide orientation for following (digital) trends in (global) business, can forecast and diagnose certain situations, recognizes potential improvement / development areas for the organisation, gains ideas for improvement / development for gathered data and metrics, recognizes other people's ideas for what they are worth.				

Collaborative capacity <i>The student collaborates effectively¹ with people, inside and outside the own team, from different backgrounds and with different interests, to achieve the required result.</i> Indicator examples: ¹ takes responsibility over his/her role within the team(s) and picks up the required tasks according to the team's expectations, takes responsibility for own actions, understands and deals effectively with internal politics, works in an ethical and socially responsible manner, understands the different interests of all stakeholders and take these into account, contributes to interdisciplinary teams, deals with the dependency on others, addresses people correctly, expresses himself clearly and voices own opinions; responds with curiosity when people disagree; encourages and motivates others to come up with their own opinions; adheres to existing rules and regulations; listens carefully to other people's ideas.				
Intercultural proficiency <i>The student recognizes cultural differences¹ and shows effective and appropriate behavior and communication² in intercultural challenging situations.</i> Indicator examples: ¹ recognizes people's cultural background, looks into the cultural complexity of a situation via active listening, checks accuracy of interpretation and concrete observations, actively looking for the other perspective and explores new approaches; ² applies different coping strategies and adjusts the communication style in varying intercultural situations; demonstrates effective use of verbal and non-verbal communication in an intercultural context; constructs a network and maintains relationships in a respectful manner with people from a different personal and/or professional and/or business background; operates effectively within an intercultural team irrespective of the role they undertake; reflects on his own behavior / preferred ways of working and that of others from an intercultural perspective and makes adjustments for what is needed in the team; advocates the benefits of cultural differences and creates a more inclusive cooperation, can mitigate the pitfalls of cultural differences.				

Reflective practitioner <i>The student takes responsibility¹ for their own professional behavior and development.</i> Indicator examples: ¹ willingness and active attitude to investigate his talents, the areas for growth and the appropriate ways to learn (self-knowledge); is eager to learn and actively asks for feedback regularly; puts feedback to good use via concrete learning goals; apply new approaches, evaluate the result and adapt learning goals; takes responsibility for own behavior and reflects critically from various perspectives on that and the related results; recognizes own mistakes and attempts to correct or prevent them; shows flexibility to adapt to changing situations; is aware of potential stress situations and acts pro-actively; brings own activities in line with the accepted code of conduct of the professional field; gives account of own activities in terms of ethical and social responsibility.				
Company related tasks, activities and professional products <i>The student provides reliable evidence¹ of of their contribution² on Bachelor exit level 3 in terms of complexity³ and autonomy⁴ by including not only reflections, but also the professional products he/she worked on.</i> Indicator examples: ¹ various professional products, 360d feedback forms and the appraisal by the company coach support the claim the student made in the reflection on the PAs ² clear descriptions of relevancy/added value of professional products for stakeholders prove a recognizable positive contribution to the final deliverables; theoretical knowledge and tools have been applied; effective implementation of professional products (if applicable); executes tasks via an efficient approach ³ tasks are derived from an unknown/new/dynamic situation and has no standard approach; Interdisciplinary projects/tasks are executed; intensive interaction with a diversity of stakeholders, taking political sensitivities into account ⁴ in the lead of fulfilling own tasks/professional products; making well-argued choices and decisions; able to work independently, but asks for support at appropriate times				

APPENDIX 3 – 360-DEGREE FEEDBACK FORM

**HAN International School of
Business**

360-DEGREE FEEDBACK FORM

Graduation Internship – IB/CS

Graduate Name		Date	
Student No.		Job Title / Department	
Name person completing the form		Email address + phone number	
Role within the context of the project		Brief project description	
Date Completed			
Signature person completing the form		Signature student for acknowledgement	

The International School of Business is using a 360-degree feedback form for its students. During the graduation internship, various colleagues from different perspectives are being asked two times by the student to provide him/her with feedback about various skills. First time halfway the graduation internship and the second time at the end of the graduation internship. Feedback is of great importance and helps the student to further develop professional and personal skills.

Please rate the student based on your recent experience with him/her. Be realistic, honest, and direct.

NOTE: It is especially important to take the time to enter your motivation and give examples. For more detailed indicators for each performance area, see examples on page 4. The value of the 360-degree process depends on your open and constructive feedback. Please discuss this form with the student.

Please provide a score per performance area and explain the reasoning for the scoring. 1: Unsatisfactory - 2: Sufficient - 3: Good - 4: Outstanding				
Performance areas	Scores interim appraisal	Motivation and tips for improvement	Scores final appraisal	Motivation and tips for improvement
Entrepreneurial behaviour The student exhibits proactive behaviour₁ and an investigative attitude₂ that shows the ability to anticipate changes in the internal and external environment.				
Innovative capacity The student exhibits a problem-solving attitude₁ by improving existing, or creating new, procedures / working methods and/or products /services, supported by analytical behaviour₂.				
Collaborative capacity The student works effectively₁ with people, inside and outside their own team, from different backgrounds and with different interests, to achieve the required result.				

<i>Intercultural proficiency</i> <i>The student recognises cultural differences₁ and shows effective and appropriate behaviour and communication ₂ in intercultural situations.</i>				
<i>Reflective practitioner</i> <i>The student takes responsibility₁ for their own professional behaviour and development.</i>				

Indicator examples

Entrepreneurial behaviour

*The student exhibits **proactive behaviour**₁ and an **investigative attitude**₂ that shows the ability to anticipate changes in the internal and external environment.*

Indicator examples:

- 1 result driven, takes initiatives, takes risks, dares to take decisions, is not afraid to express bold opinions, takes responsibility for own actions, shows independency, is motivated and ambitious, is able to deal with uncertainties, shows maneuverability, is able to build networks in and outside the organisation,
- 2 thinks critically, shows curiosity, has an international business awareness, is able to ethically gather and correctly interpret data and information, seeks cohesion with other business units, recognizes and seizes business opportunities.

Innovative capacity

*The student exhibits a **problem-solving attitude**₁ by improving existing, or creating new, procedures / working methods and/or products /services, supported by **analytical behaviour**₂.*

Indicator examples:

1. dares to question the existing situation, looks beyond obvious solutions and looks for better alternatives, is flexible in thinking and expresses many ideas and uncommon views, creates innovative ideas (from a sustainable perspective), can come up with practical and relevant future proof solutions, can gain commitment for the innovations within the organisation.
2. identifies and defines problems, extracts key information from data and develops workable solutions for the problems identified in order to test and verify the cause of the problem and develop solutions to resolve the problems identified, interprets gathered data and metrics, wide orientation for following (digital) trends in (global) business, can forecast and diagnose certain situations, recognizes potential improvement / development areas for the organisation, gains ideas for improvement / development for gathered data and metrics, recognizes other people's ideas for what they are worth.

Collaborative capacity

*The student **works effectively**₁ with people, inside and outside their own team, from different backgrounds and with different interests, to achieve the required result.*

Indicator examples:

1. takes responsibility over his/her role within the team(s) and picks up the required tasks according to the team's expectations, takes responsibility for own actions, understands and deals effectively with internal politics, works in an ethical and socially responsible manner, understands the different interests of all stakeholders and take these into account, contributes to interdisciplinary teams, deals with the dependency on others, addresses people correctly, expresses himself clearly and voices own opinions; responds with curiosity when people disagree; encourages and motivates others to come up with their own opinions; adheres to existing rules and regulations; listens carefully to other people's ideas.

Intercultural proficiency

*The student **recognises cultural differences**₁ and shows **effective and appropriate behaviour and communication**₂ in intercultural challenging situations.*

Indicator examples:

- 1 recognizes people's cultural background, looks into the cultural complexity of a situation via active listening, checks accuracy of interpretation and concrete observations, actively looking for the other perspective and explores new approaches;
- 2 applies different coping strategies and adjusts the communication style in varying intercultural situations; demonstrates effective use of verbal and non-verbal communication in an intercultural context; constructs a network and maintains relationships in a respectful manner with people from a different personal and/or professional and/or business background; operates effectively within an intercultural team irrespective of the role they undertake; reflects on his own behavior / preferred ways of working and that of others from an intercultural perspective and makes adjustments for

what is needed in the team; advocates the benefits of cultural differences and creates a more inclusive cooperation, can mitigate the pitfalls of cultural differences.

Reflective practitioner

*The student takes **responsibility**¹ for their own professional behaviour and development.*

Indicator examples:

¹ willingness and active attitude to investigate his talents, the areas for growth and the appropriate ways to learn (self-knowledge); is eager to learn and actively asks for feedback regularly; puts feedback to good use via concrete learning goals; apply new approaches, evaluate the result and adapt learning goals; takes responsibility for own behavior and reflects critically from various perspectives on that and the related results; recognizes own mistakes and attempts to correct or prevent them; shows flexibility to adapt to changing situations; is aware of potential stress situations and acts pro-actively; brings own activities in line with the accepted code of conduct of the professional field; gives account of own activities in terms of ethical and social responsibility.

APPENDIX 4 – APPRAISAL FORM COMPANY COACH**HAN International School of
Business*****Appraisal Form Company
Coach******Graduation Internship****International Business / Communication Studies*

Graduate Name		Date	
Student No.		Job Title / Department	
Name company coach		Email address + phone number	
Date Completed			
Signature person completing the form		Signature student for acknowledgement	

Dear company coach,

Thank you very much for the opportunity you give our HAN IB/CS student to graduate within your company. Since the Graduation Internship is the final proof to check whether a student is ready to start working on a bachelor level in practice, we would highly appreciate it if you could give him/her some input on his/her performance. Feedback and feedforward are important and help the student to further develop professional and personal skills.

Please rate the student based on your recent experience with him/her. Be realistic, honest, and direct, and add your motivation. For more detailed indicators for each performance area, see examples on page 5 and 6.

The value of the appraisal process depends on your open and constructive feedback. Please discuss your feedback with the student.

Please provide a score per performance area and explain the reasoning for the scoring. 1: Unsatisfactory - 2: Sufficient - 3: Good - 4: Outstanding				
Performance areas	Scores interim appraisal	Motivation and tips for improvement	Scores final appraisal	Motivation and tips for improvement

APPENDIX 5 – GI INFO SHEETS PER SPECIALISATION

GI info sheet for students of the specialisation O&C

Introduction

This information sheet is created for students who have chosen the specialisation Organization & Change of the study stream IB. The sheet provides a detailed overview of what is expected from O&C graduates during their graduation period. Students can use this sheet as background information for when they are in the process of acquiring a GI and writing their proposal.

Description of an O&C graduate student. The student...	...contributes to structuring and improving the organizational processes and managing the personnel in order to achieve the goals of the organization in the most effective and efficient way. The graduate is a generalist with truly international and integral orientation (not functional specialist but has integral view and sees interdependence between various functional areas).	
Examples of tasks	The graduation internship activities should be about increasing an organization's effectiveness through 1 or more of the factors below: 1. Trends influencing an organization (e.g. sustainability) 2. Strategy of an organization 3. Leadership in an organization 4. Culture of an organization 5. Structure of an organization 6. Management practices of an organization 7. Business processes or systems in an organization 8. Skills of employees in an organization 9. Behaviour of employees in an organization The relation between the student's activities and the organization's effectiveness needs to be made clear.	
Example(s) of organizations/departments	No restriction.	
Examples of first jobs	(Junior) Consultant / business advisor operating in an international context within: • a consulting firm or • as a staff function within companies. (Junior) Project Manager for change or innovation projects The focus does not lie on the management of line functions like marketing manager, finance manager, HR manager etc. but on the management of people, teams and change processes.	
Professional Products	Analysis report Advice Report Project plan / management Successful meetings On-time finished projects Business Plan Personnel budget Policy on sustainability	Coaching sessions Business Intelligence Team lead (SCRUM / Agile) Learning & development program Process improvement Performance review Workforce planning and management
Knowledge / theoretical topics	Personnel and HR Administration and management (International) law Education and training Risk management Stakeholder management Scope management	Employee relations and organization behaviour Organizational effectiveness Talent management Product life cycle integration Cost management HR management Communication management

Examples of skills	• Active listening • Critical thinking • Writing skills • Coordination • Decision making • Time management and working under pressure • Problem solving • Negotiation • Analytical • Presentation skills • Inter- and intrapersonal
Contact persons	Contact your GI advisors for general questions about the GI program: graduation.internship-isb@han.nl GI Advisor  Karin Pelle Specialisation team lead For questions about your chosen specialisation, contact the specialisation team lead Martin Bos via: martin.bos@han.nl 

GI info sheet for students of the specialisation M&S

Introduction

This information sheet is created for students who have chosen the specialisation Marketing & Sales (M&S) of the study stream IB. The sheet provides a detailed overview of what is expected from M&S graduates during their graduation period. Students can use this sheet as background information for when they are in the process of acquiring a GI and writing their proposal.

Description of an M&S graduate student. The student...	...contributes in activities concerning various elements in marketing and sales. You can for example support companies to expand into new markets abroad or by improving existing international marketing and sales strategies. What do customers want? Which new markets should you move into? You know how to find answers to these questions.	
Examples of tasks	Set up marketing communication campaigns Analyze sales and market data Generate online leads (B2B and B2C) Support international market research and entry strategy development Contacts with clients Draft quotation Elaborate sales contracts Accompanying account manager Increase brand awareness/identity Increase sales New product development	Product portfolio management Brand management Strategies for growth (export, new markets) Competitive intelligence Consumer behavior analysis CSR strategies Marketing campaign analysis Customer relationship management Event management Digital marketing strategy SEA & SEO strategies
Example(s) of organizations/departments	M&S students can be active in all industries, such as: Oil&Gas, chemical, pharmaceutical, fashion, high tech, packaging, automotive, aviation, tourism, renewable energy etc. They can be active in B2C and B2B organizations, small and large organizations. Profit and non-profit organizations. The departments can vary, for example: Marketing department, Sales department, Sales and Marketing department, Communication department, Customer support, Customer Satisfaction department, Lead Generation team, Content Creation etc. HR department (if they are focusing on internal communication or employer branding)	
Examples of first jobs	Employee marketing department in an internationally oriented SME to LSE Employee Sales/Export department in an internationally oriented SME to LSE. Assistant account manager Junior product manager Junior E-commerce manager Junior Sales manager Junior (Online) marketing manager Junior Export manager	
Professional Products	Marketing plan Communication plan Export plan Sales plan Quotation Market Research Customer Relationship Management Event management E-commerce strategy	Account plan Business Plan Business Intelligence Campaign + content creation Employer branding Marketing analytics Social Media strategy Lead generation Pitch + demonstration Analysis of sales and market data
Knowledge / theoretical topics	Marketing strategies Market research Negotiate Analysis market data Account Management	Marketing advice e-commerce Sales process Sales consulting Sales strategies
Examples of skills	Active listening	

	• Critical thinking • Communicative skills in various languages (written and oral) • Coordination • Decision making • Time management • Problem solving • Negotiation • Analytical • Presentation skills • Working under pressure
<u>Contact persons</u>	Contact your GI advisors for general questions about the GI program: graduation.internship-isb@han.nl GI Advisor  Karin Pelle Specialisation team lead  For questions about your chosen specialisation contact the specialisation team lead Artak Vardanyan via: artak.vardanyan@han.nl

GI info sheet for students of the specialisation Finance

Introduction

This information sheet is created for students who have chosen the specialisation Finance of the study stream IB. The sheet provides a detailed overview of what is expected from Finance graduates during their graduation period. Students can use this sheet as background information for when they are in the process of acquiring a GI and writing their proposal.

Description of a Finance graduate student. The student...	...contributes to decision making, participates in the day to day activities of a finance department.	
Examples of tasks	Design, produce & maintain financial and process models Interact with many disciplines to get data, opinions, facts Organize & analyze data, opinions, facts Measure and discuss performance in financial and non-financial terms Develop alternative solutions based on requirements, literature and knowledge Analyze consequences of alternatives Present findings & recommendations to all disciplines in a convincing manner	
Example(s) of organizations/departments	No specific requirements when it comes to the organization. A finance students can work in any department as long as the tasks are 'finance' related. For example: A junior business controller role within the sales department where the student needs to analyze sales data report and advice	
Examples of first jobs	Assistant business controller Assistant financial controller Assistant Risk auditor Financial analyst Business control(ler) Risk analyst Treasury	Accounting department Business analyst Business intelligence Junior portfolio manager Auditing Data scientist
Professional Products	Analysis reports in preparation for strategic & tactical decisions Reports describing problems, causes and possible solutions with (financial) consequences Advice reports on administrative organization, quality control and risk management. Risk assessment Balanced scorecard or something similar	Business Process Management Enterprise Resource Planning (ERP) Budgeting Controlling Business Intelligence Financial & process models Process improvement Management report
Knowledge / theoretical topics	Financial and accounting models Corporate Finance ERP systems & IT & Big Data Performance Management Business Processes Quality Control Administrative organization Risk management External reporting	
Examples of skills	Research Analysis Advisory skills IT skills

GI info sheet for students of the specialisation Supply Chain Management

Introduction

This information sheet is created for students who have chosen the specialisation Supply Chain Management (SCM) of the study stream IB. The sheet provides a detailed overview of what is expected from SCM graduates during their graduation period. Students can use this sheet as background information for when they are in the process of acquiring a GI and writing their proposal.

Description of a SCM graduate student. The student...	...contributes to various activities in Supply Chain Management. For example (but not limited to) contribute to the Sales & Operations planning process, improve operations processes in e.g. warehousing, manufacturing or transport, create a dashboard to support execution of e.g. the order-to-cash/purchase-to-pay process or contribute to decision-making as part of managing a SCM-related department.	
Examples of tasks	Investigate and analyze developments and translate these to consequences Formulate policies for logistics Develop relationships, networks Plan & execute logistics processes Assist and support improvement and change of logistics processes Use management models like SCF and ETO Monitor performance in logistics operations using e.g. BSC, recognize problems, diagnose causes & recommend solutions	
Example(s) of organizations/departments	No restrictions, as long as tasks and professional products are SCM related.	
Examples of first jobs	Junior Supply Chain Planner Assistant Supply Chain Analyst Junior Project Manager Logistics Junior Process Manager Junior Consultant-Supply Chain Management Junior Demand Planner	Junior Reporting Analyst Trainee Supply Chain Manager Trainee Transport Manager Junior purchasing assistant Junior Warehouse Manager Assistant Manager Logistics
Professional Products	Optimized logistic processes Analysis reports showing consequences of external and internal developments Advisory presentation Business Intelligence report/dashboards Sourcing strategy Sustainability in the supply chain. Industry 4.0 in the SCM	Value Chain analysis / management Quality Assurance (Quality, Environment, Safety and Health) Trade compliance LEAN / Six sigma E-fulfilment Supply chain synchronization (Sales and Operations Planning)
Knowledge / theoretical topics	Procurement Production processes Inventory Management Distribution / Warehousing Transport & Transport planning ERP & IT & Big data Supply chain finance Supply chain risk management	
Examples of skills	Negotiations, application of various tools, research, analytical, decision making, problem solving skills	
Contact persons	Contact your GI advisors for general questions about the GI program: graduation.internship-isb@han.nl

GI info sheet for students of Communication Studies

Introduction

This information sheet is created for students who are in the Communication Studies (CS) study stream. The sheet provides a detailed overview of what is expected from CS graduates during their graduation period. Students can use this sheet as background information for when they are in the process of acquiring a GI and writing their proposal.

Description of a CS graduate student. The student...	...contributes to decision making, participates in the day to day activities of the communications function of an organization. The communication profession is influential with regard to all major contemporary challenges and issues. As a result, there is a pressing need for communication professionals who can mobilize people and can ensure relevant dialogue is stimulated. Not only online with customers or residents, but also via personal dialogue on sensitive topics with critical stakeholders. For communication professionals that can provide solutions to today's challenges the communication profession offers a world in which there are many opportunities (Jagt, 2015).	
Examples of tasks	Investigate and analyze developments and translate these to consequences and advice Formulate policies for communication Develop relationships, networks Plan & execute communication processes Assist and support improvement and change of communication processes Monitor performance in communications, recognize problems, diagnose causes and recommend solutions Delivering a Brand Book Writing a CSR policy Target group analysis Customer Journey mapping Image Research Community management Content production (text, visual) Representing organizations Speech writing	
Example(s) of organizations/departments	No restrictions, as long as tasks and professional products are communication related.	
Examples of first jobs	(Junior) (online) (marketing) Communication specialist (Junior) (online) Social Media manager Marketing Assistant Influencer manager PR assistant Content marketer	Content specialist Project manager Marketing & communication specialist PR & Communication specialist Communication consultant Community manager Event Manager
Professional Products	Analysis reports showing consequences of external and internal developments Advice reports Analyses of market, competition, communication, customers, etc. Brand book Content (from calendar to text and visuals) Organising an event	
Knowledge / theoretical topics	Corporate communication Marketing communication Branding Public Relations Internal communication Media & concepting Research Accountability Language	
Examples of skills	Examining power	

	Innovative power Creative power Collaborating Reflective capabilities Empathic capabilities Intercultural proficiency Ethical beliefs Agility Writing skills
Contact persons	Contact your GI advisors for general questions about the GI program: graduation.internship-isb@han.nl GI Advisor Karin Pelle  Study stream For questions about your study stream, contact Dirk van der Steenhoven: Dirk.vandersteenhoven@han.nl 

APPENDIX 6 – USE OF AI

HOW TO DEAL WITH USE OF AI-TOOLS IN (GRADUATION) INTERNSHIPS
A QUICK GUIDE FOR HAN ISB STUDENTS

Questions? Contact your internship advisor

HAN ISB - Business Connections - June 2024

CURRENT SITUATION

Many AI tools, like ChatGPT are a product of a commercial company, and it is unclear what happens with user data and the data entered into the tool. It has not been established that this tool complies with the General Data Protection Regulation (GDPR), making it unsuitable for use within HAN.

About AI tools for which HAN has not acquired a license, such as ChatGPT: ChatGPT is comparable to tools like Facebook, X (formerly Twitter), and Instagram, where you create an account on a personal basis and agree to the terms of use.

Informed, transparent, ethical and responsible use of these tools is necessary, keeping in mind your privacy and the privacy of third parties (such as company data!). Students and teachers cannot be required to create an account. HAN currently only recommends the use of **Microsoft Copilot** in this regard.

ADVICE

The use of AI tools is allowed **only when approved by internship company AND if its use complies with the following rules:**

1. **Informed use:** Know AI tools limits/risks. Verify the generated info.
2. **Transparent use:** You must **receive permission via email** (in writing and enclosed in appendix as evidence) for the use of AI tools such as ChatGPT. If you got permission from the company to use AI in the internship portfolio, you **must account** for the use of the AI tool in referencing list.

For example, in reference list:

Microsoft. (2023). *Microsoft Copilot for Microsoft 365* [Large language model]. <https://copilot.microsoft.com/>

In-text referencing: You should use it as citation or paraphrase. They always should **indicate the prompt** (assignment) given. An example: “*For formulating the objective the chatbot Microsoft Copilot was used (Microsoft, 2023) with the following prompt “...”*”

More info (in Dutch):

[The APA-Team: ChatGPT \(theapateam.blogspot.com\)](https://theapateam.blogspot.com/)

3. **Ethical use:** Content submitted is accurate, unbiased and ethical
4. **Responsible use:** Avoid personal, company and/or confidential information in prompts.

GOOD TO KNOW

1. Academic integrity and responsibility for the quality of your work may be affected by use of AI
2. Graduating is done for your personal development, and unauthorized use of tools (in a broad sense) can potentially hinder the ability to graduate.
3. Given the form of assessment, language use or sentence structure is not assessed. There is no need to use AI for this.

In case of suspicion of AI use in which you....:

1. ...did not have written permission from the company AND/OR;
2. ...did not show use of AI in APA reference list / in-text citation ...AND;
3. ...changed the level/content of reflection significantly...

...the supervisor can contact the **Board of Examiners**. The Board of Examiners has the right to investigate in a supplementary interview with the student whether the submitted work is student-own (= authentic).

**OPEN UP
NEW **HAN_** UNIVERSITY
OF APPLIED SCIENCES
HORIZONS.**
